INDEPENDENT AUDITORS' REPORT

Honorable Felix P. Camacho
Governor
Government of Guam:

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam (GovGuam) as of and for the year ended September 30, 2004, which collectively comprise GovGuam's basic financial statements as set forth in Section II of the foregoing table of contents. These financial statements are the responsibility of the management of GovGuam. Our responsibility is to express an opinion on the respective financial statements based on our audit. We did not audit the financial statements of the GovGuam Retirement Fund, which comprises the Fiduciary Funds - Pension Trust Funds, or the Guam Telephone Authority, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, and the Guam Educational Telecommunications Corporation, which represent 13% and 16%, respectively, of the assets and revenues of GovGuam's discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the GovGuam Retirement Fund, the Guam Telephone Authority, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, and the Guam Educational Telecommunications Corporation, is based solely on the reports of the other auditors.

Except as discussed in the following paragraphs, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GovGuam's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

While GovGuam's Department of Revenue and Taxation has provided the required data to reconcile to the records of GovGuam's Department of Administration - Division of Accounts, support for such data was insufficient for us to perform procedures to satisfy ourselves as to the effectiveness of the systems surrounding tax related balances, nor could we perform other procedures to enable us to satisfy ourselves with respect to tax related balances in the accompanying financial statements.

Our audit of the respective financial statements did not include the financial activities of the Guam Memorial Hospital Authority and the Guam Visitors Bureau, whose financial activities are included in the aggregate discretely presented component units and represent 5% and 15%, respectively, of the assets and revenues of GovGuam's discretely presented component units. The entities comprising these financial activities were not able to produce audited financial statements and the effect on the respective financial statements is unknown.

In our opinion, based on our audit and the reports of other auditors, except for the effects on the respective financial statements of such adjustments, if any, as might have been determined to be necessary had we been able to substantiate GovGuam's Revenue and Taxation records, as discussed in the third paragraph above, and had we obtained audited financial statements of the Guam Memorial Hospital Authority and the Guam Visitors Bureau, as discussed in the fourth paragraph above, such financial statements, as set forth in Section II of the foregoing table of contents, present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam as of September 30, 2004, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1A to the basic financial statements, GovGuam has implemented the Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations are Component Units* in 2004. This standard modifies the criteria for defining component units of a governmental entity. As a result of the implementation of this standard, foundations related to the University of Guam and Guam Community College, discretely presented component units, have been added as component units. Beginning net assets of the discretely presented component units have been restated to account for the implementation of this accounting standard.

The Management's Discussion and Analysis, on pages 4 through 12, as well as the Schedule of Revenues, Expenditures, and Changes in Deficit - Budget and Actual - General Fund and notes thereto, as set forth in Section III of the foregoing table of contents, are not a required part of the basic financial statements but are supplementary information required by GASB. This supplementary information is the responsibility of the management of GovGuam. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit such information and we do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on GovGuam's respective financial statements that collectively comprise GovGuam's basic financial statements. The Other Supplementary Information, as set forth in Section IV of the foregoing table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements of GovGuam. This supplementary information is the responsibility of the management of GovGuam. Such additional information has been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, except for the effect of the matters described in the third and fourth paragraphs above, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 11, 2005, on our consideration of the Government of Guam's (primary government only) internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

GOVERNMENT OF GUAM

Management's Discussion and Analysis Year Ended September 30, 2004

Our discussion and analysis of the Government of Guam ("GovGuam") financial performance provides an overview GovGuam's financial activities for the fiscal year ended September 30, 2004. Please read it in conjunction with GovGuam's basic financial statements, which follow this section. Fiscal year 2003 comparative information has been included, where appropriate. The amounts included for fiscal year 2003 for the purpose of comparisons have been restated, as further detailed in the fiscal year 2004 notes to the basic financial statements.

FINANCIAL HIGHLIGHTS

- For the fiscal year ended September 30, 2004, GovGuam's total net assets increased by \$7.8 million (or 19.8%) from \$39.4 million in the prior year to \$47.2 million. This increase is primarily attributable to special items regarding an overprovisioning for estimated income tax refunds (\$18.0 million) and a gain from a tax drawback settlement (\$5.9 million).
- During fiscal year 2004, GovGuam's expenses for governmental activities were \$675.1 million, including expenses recorded or payments made or due to the autonomous agencies, and were funded in part by \$254.5 million in program revenues and \$404.5 million in taxes and other general revenues (excluding special items of \$23.9 million). Expenses were down from fiscal year 2003 by \$25.3 million (or 3.6%) whereas program revenues were up from fiscal year 2003 by \$4.4 million (or 1.8%). This increase in program revenues was primarily due to an increase in charges for services (\$1.9 million) and operating grants and contributions (\$2.5 million).
- For the fiscal year ended September 30, 2004, the General Fund reported general fund appropriations (including transfers out) of \$447.8 million, \$17.4 million in excess of revenues (including transfers in) of \$430.4 million, but were down \$35.9 million (or 7.4%) from fiscal year 2003 primarily because of a decrease in public education related expenditures (down \$11.8 million or 7.5%), debt service related expenditures (down \$6.1 million or 12.7%), and federal grant local match requirements (down \$6.2 million or 23.7%).
- At September 30, 2004, the General Fund reported a total fund balance deficit of \$313.6 million, which is a decrease of \$0.5 million from the prior year deficit of \$314.1 million. This positive change in the deficit is primarily attributable to an increase in the deficit of the unreserved general fund balance of \$3.0 million (or 0.9%) offset by a decrease in the reserve for related assets of \$5.0 million (or 26.0%) and an increase in continuing appropriations of \$7.2 million (or 114.4%).

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to GovGuam's basic financial statements. GovGuam's basic financial statements comprise three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional required supplementary information in the form of budgetary schedules, which are prepared on the budgetary basis of accounting, and other optional supplementary information, in addition to the basic financial statements themselves, which includes combining statements for governmental funds and component units.

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued Year Ended September 30, 2004

Government-wide Financial Statements

The government-wide statements report information about GovGuam as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report GovGuam's net assets and how they have changed. Net assets - the difference between GovGuam's assets and liabilities - is one way to measure GovGuam's financial health or position.

- Over time, increases or decreases in GovGuam's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of GovGuam you need to consider additional non-financial factors such as changes in GovGuam's tax base, the condition of GovGuam's roads and infrastructure, and the quality of services.

The government-wide financial statements of GovGuam are divided into two categories:

- Primary government - this grouping comprises governmental activities, which includes most of GovGuam's basic services such as education, public safety, health, finance, judiciary, and general administration. Local sourced tax revenues and other federal grants finance most activities of the primary government.
- Discretely presented component units - GovGuam includes numerous other entities in its report. Although legally separate, these "component units" are important because GovGuam is financially accountable for them.

Fund Financial Statements

The fund financial statements provide more detailed information about GovGuam's most significant funds - not GovGuam as a whole. Funds are accounting devices that GovGuam uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by enabling legislation.
- GovGuam establishes other funds to control and manage money for particular purposes (like Solid Waste Operations Fund) or to show that it is properly using certain grants (like federal grants reported in the Federal Grants Fund).

GovGuam has two kinds of funds:

- Governmental funds - Most of GovGuam's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of GovGuam's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance GovGuam's programs.

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued Year Ended September 30, 2004

Fund Financial Statements, Continued

- Fiduciary funds - GovGuam is the trustee, or fiduciary, for other assets that because of trust arrangement, can be used only for the trust beneficiaries. GovGuam is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of GovGuam's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of change in fiduciary net assets. We exclude these activities from GovGuam's government-wide financial statements because GovGuam cannot use these assets to finance its operations.

A FINANCIAL ANALYSIS OF GOVGUAM AS A WHOLE

Net assets may serve over time as a useful indicator of a government's financial position. At the end of fiscal year 2004, GovGuam's assets exceeded liabilities by \$47.2 million. However, all these net assets are either restricted as to the purpose they can be used for or are invested in capital assets. GovGuam uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although GovGuam's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the liabilities. The summary of Net Assets (condensed) presented below, with comparable balances for fiscal year 2003, discloses this relationship:

GovGuam's Net Assets As of September 30

	<u>2004</u>	<u>2003</u>
Current and other assets	\$ 253,113,093	\$ 298,409,594
Capital Assets	<u>691,343,343</u>	<u>694,468,275</u>
Total Assets	<u>944,456,436</u>	<u>992,877,869</u>
Long-term liabilities	418,957,722	434,115,141
Other liabilities	<u>478,304,897</u>	<u>519,365,702</u>
Total Liabilities	<u>897,262,619</u>	<u>953,480,843</u>
Net assets:		
Invested in capital assets, net of related debt	436,097,699	425,614,417
Restricted net assets	106,647,586	119,643,608
Unrestricted net assets	<u>(495,551,468)</u>	<u>(505,860,999)</u>
Total net assets	<u>\$ 47,193,817</u>	<u>\$ 39,397,026</u>

At the end of fiscal year 2004, GovGuam's unrestricted net assets showed a deficit of \$464.8 million, a decrease of \$12.8 million (or 2.7%) from the prior year. This deficit is the result of having long-term commitments that are greater than currently available resources. Specifically, GovGuam did not include in past annual budgets the full amounts needed to finance future liabilities arising from outstanding bonds payable and other loans as well as to pay for unfunded pension liabilities, closure and post closure costs of the Ordot Dump, and unused employee leave balances. GovGuam will include these amounts in future years' budgets as they become due.

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued Year Ended September 30, 2004

Changes in Net Assets

For the year ended September 30, 2004, net assets of the primary government increased by \$7.8 million, an increase of 19.8% from the prior year's net assets of \$39.4 million. This result indicates that GovGuam's financial condition, as a whole, improved from the prior year. For the year ended September 30, 2004, net assets of the primary government changed as follows, with comparable amounts for fiscal year 2003:

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued Year Ended September 30, 2004

FINANCIAL ANALYSIS OF GOVGUAM'S FUNDS

As noted earlier, GovGuam uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of the end of fiscal year 2004, GovGuam's governmental funds reported a combined fund balance deficit of \$198.7 million, which represents an increase of \$6.5 million (or 3.4%) in comparison with fiscal year 2003. This increase is primarily attributable to the increase in fund balance of the special revenue funds of \$3.3 million and the debt service funds of \$3.0 offset by a decrease in fund balance of the capital projects funds (down \$13.3 million). Of this total combined fund balance deficit, \$159.1 million is reserved to indicate that it is not available for new spending because it has already been committed: 1) to liquidate contracts and purchase orders of the prior period (\$63.7 million); 2) to fund debt service-related activities (\$36.5 million); 3) to liquidate continuing appropriation commitments (\$31.2 million); or 4) for a variety of other restricted purposes. The combined deficit of GovGuam's governmental funds is \$351.8 million, a decrease of \$49.8 million (or 12.4%) from fiscal year 2003. This deficit will be funded through future budgetary surpluses.

General Fund Budgetary Highlights

During the course of the fiscal year, management and elected officials of GovGuam revised the General Fund budget. The revised budget included an increase in overall general fund appropriations of \$10.0 million. The primary reason for the upward revision in general fund appropriations was due to the roll-over of encumbrances from fiscal year 2003.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

GovGuam's investment in capital assets for its governmental activities as of September 30, 2004 amounted to \$847.9 million, with (net of) accumulated depreciation of \$156.6 million, leaving a net book value of \$691.3 million. GovGuam's capital assets include land, infrastructure, buildings, machinery and equipment, and various projects under construction. (See table below). This represents an increase of \$22.9 million (or 2.8%) from fiscal year 2003.

GovGuam's Capital Assets September 30, 2004 (net of depreciation)

	<u>2004</u>	<u>2003</u>

Capital Assets, Continued

Major capital asset additions for fiscal year 2004 were as follows:

- \$9.1 million road improvements to the Tumon Bay restoration project.
- \$4.0 million for Phase II of the reconstruction for Route 1, Marine Corps Drive.
- \$2.7 million for road construction for Route 4, Yona to Ylig Bridge.

Additional information on GovGuam's capital assets can be found in note 1K to the basic financial statements.

Long-term Debt

The Organic Act authorizes GovGuam to borrow for such purposes as approved by the Legislature. GovGuam has entered into seven separate long-term debt obligations, as indicated below. No new long-term debt obligations were incurred by GovGuam during the year ended September 30, 2004 with overall long-term debt obligations decreasing by \$37.5 million (or 10.3%) in fiscal year 2004.

GovGuam's Outstanding Debt September 30, 2004

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued Year Ended September 30, 2004

ECONOMIC FACTORS AND NEXT YEAR BUDGETS AND RATES

Guam benefits from being the westernmost territory of the United States, in close proximity to Asian nations bordering the Pacific Ocean. Guam is a strategic military location and is home to many domestic and international corporations that serve our tourists and military markets. Since 2002, Guam has suffered from the effects of the Gulf/Iraq war, Asian SARS epidemic, typhoon Chata'an in July 2002, and super-typhoon Pongsona in December 2002. The consequences of these events resulted in the loss of private sector jobs, fewer tourist arrivals and increased expenditures in reconstruction efforts. Banks, the U.S. Small Business Administration and the U.S. Federal Emergency Management Agency all played major roles in assisting Guam's economic units rebuild during these past two fiscal years. There is evidence of increased economic activity in fiscal year 2004 that should be sustained, if not grown marginally, into fiscal year 2005.

The unemployment rate for Guam is currently 7.7% as of March 2004, a decrease of 32.5% when compared to 11.4% for the same period in 2002 (2003 N/A). The total number of payroll employment for the first quarter of 2004 was 57,810 employees, an increase of 3.6% when compared to 55,780 employees for the same period in 2003.

Guam's Consumer Price Index (CPI) increased by 2.8% for the first quarter of 2004 when compared to the same period in 2003, with CPI reported at 106.72 for the first quarter of 2004. [1996 = 100]

Visitor arrivals totaled 278,359 for the fourth quarter of 2004, a 1.3% increase (3,682 visitors) from the fourth quarter of 2003, and a 23.8% increase (52,808 visitors) when 2003 is compared to the fourth quarter of 2002.

The number and aggregate value of building and construction permits issued on Guam for the first quarter of 2004 were 332 permits valued at \$21,430,000, an increase of 5.7% in terms of the number of permits and a decrease of 5.6% in terms of the aggregate value for the same period in 2003. However, building occupancy permits have risen from 58 to 196, a 238% increase from the first quarter of 2003 to the same period in 2004.

The fiscal year 2005 budget is comprised of two separate public laws: Public Law 27-106 and Public Law 27-107, one bearing the Governor's signature. General fund revenues and expenditures adopted amount to \$447.4 million, considerably higher than that proposed by the Administration. It is unlikely that those revenues will be realized, given that the temporary increase in the gross receipts tax rate reflected in fiscal years 2003 and 2004 revenues has been rolled back, negatively impacting fiscal year 2005 revenues, off-setting anticipated increases in income tax revenues.

GOVERNMENT OF GUAM

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances (Deficits) to the Statement of Activities September 30, 2004

Total net change in fund balances (deficits) - governmental funds \$ (6,493,543)

Amounts reported for governmental activities in the statement of activities are different because:

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds 1,028,032

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. For the current year these amounts consist of:

Capital outlay	\$ 22,927,602	
Depreciation expense	<u>(26,052,534)</u>	
		(3,124,932)

Repayment of long-term debt is reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. For the current year these amounts consist of:

Long-term debt retirement 37,521,927

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. For the current year these activities consist of:

Accrued interest	431,995	
Compensated absences	4,768,553	
Unfunded pension costs	(26,472,421)	
Amortization of bond premiums and issuance costs	<u>137,180</u>	
		(21,134,693)

Change in net assets of governmental activities \$ 7,796,791

GOVERNMENT OF GUAM

Notes to Financial Statements
September 30, 2004

(1) Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying basic financial statements of GovGuam (GovGuam) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles.

Guam is an unincorporated territory of the United States of America with policy relations between Guam and the United States under the jurisdiction of the Office of Territorial and International Affairs, U.S. Department of the Interior. In 1950, the U.S. Congress provided Guam with an Organic Act that organized GovGuam as a constitutional government comprised of locally elected executive and legislative branches and an appointed judicial branch. In addition, Guam has an elected representative to the U.S. Congress who possesses the same powers and privileges as Representatives from the various States, with the exception of voting on the House floor. The Executive Branch consists of a popularly elected Governor and Lieutenant Governor, each serving a four-year term, with executive department heads appointed by the Governor with the consent of the Guam legislature. The Legislative Branch is a unicameral parliament consisting of 15 members elected for a term of two years. The Judicial Branch is comprised of a Territorial Superior Court, a Supreme Court and a U.S. Federal District Court. The U.S. Federal District Court handles U.S. constitutional questions and other Federal cases. Appeals are channeled through the Ninth Circuit Court of Appeals in San Francisco and from there to the U.S. Supreme Court. Under the Organic Act, GovGuam is required to submit to the U.S. Congress and the Secretary of the Interior a comprehensive annual financial report in conformance with the standards of the National Council on Governmental Accounting within 120 days after the close of the fiscal year; however, GovGuam has not complied with this requirement.

For financial reporting purposes, GovGuam has included all funds, organizations, agencies, boards, commissions and institutions, including the Guam Department of Education, which is a line agency of GovGuam and is included within the General Fund. GovGuam has also considered all potential component units for which it is financially accountable as well as other entities for which the nature and significance of their relationship with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. Blended component units are entities that are legally separate from GovGuam, but are so related to GovGuam that they are, in substance, the same as GovGuam or entities providing services entirely or almost entirely to GovGuam. The net assets and results of operations of the following legally separate entities are presented as part of GovGuam's operations:

1. Blended Component Units

The following component units are blended within the Primary Government:

- (a) GovGuam Retirement Fund System, a Fiduciary Fund Type - Pension Trust Fund. The Fund was enacted to provide retirement amenities and other benefits to GovGuam employees, who upon entry to service are eligible for membership. The Fund is governed by a seven member Board of Trustees. Two members are elected by active Fund members; two members are elected by Fund members among the roster of retirees; and three members are appointed by the Governor of Guam.

Discretely presented component units are entities which are legally separate from GovGuam, but are financially accountable to GovGuam, or whose relationships with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. The component units' column of the basic financial statements includes the financial data of the following entities:

Major Component Units:

- (a) The Guam International Airport Authority (GIAA) was created by Public Law 13-57 (as amended) as an autonomous instrumentality of GovGuam to own and operate the facilities of the Guam International Air Terminal. It is charged with the acquisition, construction, operation and maintenance of airports and related facilities for civil aviation on Guam. GIAA supports its operations through landing fees and charges for use of its facilities and through rentals under concessionaire agreements and is governed by a seven member Board of Directors, all of whom are appointed by the Governor of Guam.
- (b) The Guam Memorial Hospital Authority (GMHA) was created by Public Law 14-29 as an autonomous instrumentality of GovGuam to administer and operate the Guam Memorial Hospital. GMHA is governed by a seven member Board of Trustees, all of whom are appointed by the Governor of Guam.
- (c) The Guam Power Authority (GPA) was created by the GPA Act of 1968 and is responsible for the supervision of construction, maintenance of operations and regulations of all electrical utility services within GovGuam. It operates the power system for GovGuam and has created an Island-wide Power System Agreement with the United States Navy. GPA derives revenues from sales of electricity and is governed by the five member Consolidated Commission on Utilities (CCU), all of whom are elected for two or four year terms.
- (d) Guam Telephone Authority (GTA), formerly a division of PUAG, was created as a Public Corporation by Public Law 12-44, pursuant to which the assets and liabilities of the telephone division of PUAG were transferred to GTA. GTA's major source of revenues is derived from billings for local exchange services and tolls for non-local exchange services.

GWA derives its operating revenues from water and wastewater fees to residential, commercial and government customers, based on consumption, and is governed by the CCU.
- (f) The University of Guam (UOG) was created by Public Law 13-194 and is responsible for operating Guam's institution of higher education. UOG is governed by a nine member Board of Regents, all of whom are appointed by the Governor of Guam.

Nonmajor Component Units:

Nonmajor component units are the Guam Community College, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, the Port Authority of Guam, the Guam Economic Development and Commerce Authority, the Guam Visitors Bureau, and the Guam Educational Telecommunications Corporation (KGTF-TV).

GovGuam's component units, departments, and funds that are separately audited issue their own basic financial statements. These statements may be obtained by directly contacting the various entities administrative offices or at the web site of the Office of the Public Auditor - www.guamopa.com.

As a result, in addition to the aforementioned University of Guam (UOG) and Guam Community College (GCC) component units, the accompanying component units column of the basic financial statements includes the University of Guam Endowment Foundation, Inc. and the Guam Community College Foundation, Inc., which are legally separate, tax-exempt, separately audited, component units of UOG and GCC, respectively.

B. Government-Wide and Fund Financial Statements

The Statement of Net Assets and the Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from these statements except for other charges between the primary government and the discretely presented component units. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Primary government activities are defined as either governmental or business-type activities. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties for goods or services. As such, business-type activities account for operations similarly to a for-profit business. GovGuam did not report any business-type activities during the year ended September 30, 2004. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Discretely presented component unit activities are presented with their business-type focus.

The Statement of Net Assets presents all of the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.
- Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law.
- Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often are designated, (for example, internally restricted), to indicate that management does not consider them to be available for general operations.

The government-wide Statement of Net Assets reports \$106,647,586 of restricted net assets, of which \$30,714,064 is restricted by enabling legislation.

The Statement of Activities demonstrates the degrees to which the direct expenses of given functions or segments are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are, instead, reported as general revenue.

C. Fund Financial Statements

The fund financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances for its major and aggregated non-major funds. Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements pursuant to GASB reporting standards, with nonmajor governmental funds being combined into a single column.

GovGuam reports its financial position and results of operations in funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements account for the general governmental activities of GovGuam and are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, GovGuam considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Significant revenues susceptible to accrual include income and gross revenue taxes, federal grants, federal reimbursements and other reimbursements for use of materials and services. Miscellaneous revenues from other financing sources are recognized when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Investments and related investment earnings are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Expenditures generally are recorded in the period in which the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. General revenue is derived from taxation, investment income and other fees that are not allocated to specific programs.

D. Measurement Focus and Basis of Accounting, Continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues are reported as nonoperating. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. GovGuam reports the following fund types:

1. Governmental Fund Types

i. General Fund

This fund is the primary operating fund of GovGuam. It is used to account for all governmental transactions, except those required to be accounted for in another fund.

ii. Special Revenue Funds

These funds account for specific revenue sources that have been aggregated according to enabling legislation to support specific governmental activities.

iii. Capital Projects Funds

These funds account for the acquisition or construction of major GovGuam capital facilities financed primarily from loans and federal reimbursements.

iv. Debt Service Funds

These funds account for the accumulation of resources, principally transfers from other funds, for the payment of long-term debt principal and interest.

2. Fiduciary Fund Types

i. Pension Trust Funds

These funds report resources that are required to be held in trust for the members and beneficiaries of GovGuam's pension plans.

ii. Private Purpose Funds

These funds are used to account for resources held in trust under which principal and income benefit certain individuals.

iii. Agency Fund

This fund is used to report resources held by the primary government in a purely custodial capacity.

D. Measurement Focus and Basis of Accounting, Continued

GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments*, as amended by GASB Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - Omnibus*, sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses for either fund category or the governmental and enterprise combined) for the determination of major funds. GovGuam elected to add certain other major funds that had specific public interest. Major individual governmental funds are reported as separate columns in the fund financial statements. The nonmajor funds are combined in a column in the fund financial statements and detailed in the combining statements. GovGuam reports the following major funds:

Federal Grants Assistance Fund, a Governmental Fund Type - Special Revenue Fund. This fund accounts for all activities of U.S. special federal assistance grants and contracts utilized by GovGuam to finance general governmental operations.

Solid Waste Operations Fund, a Governmental Fund Type - Special Revenue Fund. This fund was created by Public Law 24-272 to provide a financing source for GovGuam's costs and expenses directly related to the closure and post-closure of the solid waste landfill.

E. Reporting Standards

As allowed by GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, GovGuam's discretely presented component units follow all GASB pronouncements and those Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

F. Budgetary Process

Legislation requires the Governor to present a proposed budget to the Legislature at the beginning of each annual session. The Legislature enacts the budget through passage of specific departmental appropriations. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the Territorial financial plan for the ensuing fiscal year. Supplemental appropriations for specific purposes are made throughout the year.

Budgetary control is maintained within the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effective with certain executive and legislative branch approval. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Legislature as representing continuing appropriations. Encumbrance accounting is utilized for budgetary control purposes. Encumbrances outstanding at year-end are reported as reservations of fund balance and remain as reservations of fund balance until expended or cancelled.

GOVERNMENT OF GUAM

F. Budgetary Process, Continued

Actual amounts in the budgetary comparison statements are presented on a basis that excludes outstanding encumbrances as a budgetary expenditure. Encumbrances are commitments related to unperformed (executory) contracts for goods or services and are generally evidenced by outstanding purchase orders, contracts and interdepartmental work requests.

G. Cash and Cash Equivalents and Time Certificates of Deposit

Cash and cash equivalents include cash held in demand accounts as well as short-term investments with a maturity date within three months of the date acquired by GovGuam. Deposits maintained in time certificates of deposit with original maturity dates greater than three months are separately classified on the statement of net assets/balance sheet.

As of September 30, 2004, the carrying amount of the primary government's total cash and cash equivalents and time certificates of deposit was \$174,674,640 and the corresponding bank balances were \$194,076,682, which is primarily maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. As of September 30, 2004, bank deposits in the amount of \$983,015 were FDIC insured. Deposits in banks are required by section 114 of 5 GCA 21, *Investments and Deposits*, to be secured by qualified collateral in the amount of 110% or more of the deposit balance. However, GovGuam does not enforce the requirement on a consistent basis. Therefore, substantially all cash and cash equivalents and time certificates of deposit of GovGuam are uncollateralized.

Restricted cash and cash equivalents as of September 30, 2004, for the primary government, represent amounts held and administered by GovGuam's trustees in accordance with various bond indentures for the purpose of funding debt service requirements and future capital projects, which amount to \$68,686,143 and \$38,224,963, respectively.

H. Inventories

Inventories of the primary government and the discretely presented component units are valued at the lower of cost (FIFO) or market.

I. Receivables

In general, tax revenue is recognized on the government-wide financial statements when assessed or levied and on the governmental financial statements to the extent that it is both measurable and available. Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to GovGuam for expenditures on federally funded reimbursement and grant programs are reported as "receivables from federal agencies."

Receivables of the primary government and the discretely presented component units are primarily due from businesses and individuals residing on the island of Guam. The allowance for uncollectibles primarily represents those accounts that are more than ninety days delinquent as of September 30, 2004.

I. Receivables, Continued

Receivables as of September 30, 2004, for the primary government's individual major governmental funds and nonmajor governmental funds in the aggregate, including allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Federal Grants</u>	<u>Solid Waste Operations</u>	<u>Nonmajor Governmental Funds</u>	<u>Totals</u>
Receivables:					
Taxes	\$ 165,334,403	\$ -	\$ -	\$ 37,110,580	\$ 202,444,983

Receivables recorded by the fiduciary funds are as follows:

GovGuam Retirement Fund (GGRF):

In March 1998, GGRF accepted a promissory note from the Guam Memorial Hospital Authority in the amount of \$9,385,720 for the outstanding balance of contributions owed with related penalties and interest to GGRF. The note bears interest at the bank's prime rate plus 1%, with a floor amount of 8%. At September 30, 2004, the balance on the note was \$5,788,134. Management of GGRF has fully provided for this note in the allowance for uncollectibles. As payments are made against this note, GGRF decreases the allowance for uncollectibles with a corresponding offset included in bad debt recoveries.

Public Law 24-327, as amended, became effective December 30, 1998 relative to GovGuam's Early Retirement Incentive Program (ERIP). This law allowed GGRF members with at least twenty years of creditable service to retire and to purchase up to five years of creditable service. Those electing to participate in the ERIP must pay the members' share of the required contribution, plus interest, based on their salary at the time they made the election; the time period in which the member was required to make the election being December 30, 1998 to January 7, 2000. Payments can be made in full or can be financed through deductions from annuities over a period not to exceed fifteen years.

Approximately 800 members elected to participate in the ERIP and signed promissory notes totaling nearly \$15 million. At September 30, 2004, the amount owed under these notes was \$11,115,954. There is a corresponding deferred revenue account to offset these notes receivable, since contribution income is recognized on a cash basis as amounts are collected from retirees. GovGuam's share of these contributions has been recognized in the amount of \$12,625,667 at September 30, 2004. This receivable has also been offset by deferred revenue in the same amount.

Public Law 25-72, passed in September 1999, required the payment of supplemental annuities and cost of living allowances to retirees, and specified that these payments were an obligation of the General Fund and not of GGRF. The cost of these benefits is to be paid through increased contributions over a period of twenty years. As the payment of these benefits is contingent upon an annual appropriation, no liability of \$99,296,144 has been recognized in the General Fund of GovGuam.

J. Interfund Receivables/Payables

During the course of its operations, GovGuam records transactions between individual funds for goods provided or services rendered. Receivables and payables resulting from transactions between funds are classified as "due from other funds" or "due to other funds" on the governmental fund balance sheet. Receivables and payables resulting from transactions between component units and the primary government are classified as "due to/from primary government" or "due to/from component units" on the governmental fund balance sheet and the statement of net assets. Interfund receivables and payables have been eliminated from the Statement of Net Assets.

Receivables and payables between funds reflected as due to/from other funds in the combined balance sheet at September 30, 2004, are summarized as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Federal Grants	\$ 12,017,754
General	Solid Waste Operations	1,886,143
General	Nonmajor governmental funds	57,690,964

Nonmajor governmental funds	Nonmajor governmental funds	10,906,671
Nonmajor governmental funds	Fiduciary Funds	<u>580,511</u>
		<u>\$ 145,508,768</u>

These balances result from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made, and are scheduled to be collected in the subsequent year.

Interfund receivables not expected to be repaid within the next twelve months are summarized as follows:

K. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure (e.g. roads, bridges, ramps and other similar items), are reported in the governmental activity column of the government-wide financial statements. Such assets, whether purchased or constructed, are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets are capitalized when the cost of the individual items exceeds \$50,000. The costs of normal maintenance and repairs that do not add to the value of asset or materially extend assets lives are not capitalized.

Capital assets of the primary government are depreciated using the straight-line method with a full year's depreciation charged in the year of acquisition and disposal, regardless of date. Estimated useful lives are as follows:

Buildings	40 - 60 years
Infrastructure - roads, and bridges	25 years
Furniture	7 years
Equipment, office equipment and specialized equipment	5 - 20 years
Computer hardware and software	5 - 7 years
Vehicles	5 - 20 years

L. Deferred Revenues

In the government-wide financial statements, deferred revenue is recognized when cash, receivables or other assets are recorded prior to being earned. In the governmental fund financial statements, deferred revenue represents monies received or revenues accrued which have not been earned or do not meet the "available" criterion for revenue recognition under the modified accrual basis of accounting. The deferred revenue in the governmental fund types has primarily resulted from federal funds received in advance of eligible expenditures.

M. Bond Premiums and Issuance Costs

In the government-wide financial statements, bond premiums and issuance costs are deferred and amortized over the term of the bonds using the straight-line method. Bonds payable are reported net of bond premiums. Bond issue costs are reported as deferred charges.

In the fund financial statements, governmental fund types recognize bond premiums and issuance costs in the period the bond proceeds are received. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as expenditures.

N. Interfund/Intrafund Transactions

As a general rule, the effect of interfund activity has been eliminated in the government-wide financial statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

Transfers are used to 1) move revenues from the fund that enabling legislation or budget requires to collect them to the fund that enabling legislation or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) record reductions in interfund loans for amounts that are not expected to be repaid.

O. Fund Equity/Net Assets

GovGuam reports net assets as restricted where legally segregated for a specific future use. Otherwise, these balances are considered unrestricted.

Net Assets have been restricted as follows:

“Restricted for capital projects” - identifies amounts reserved for capital projects.

“Restricted for retirement of indebtedness” - identifies amounts reserved for debt service.

“Restricted for other purposes” - identifies amounts held for various externally imposed restrictions either by creditors, grantors or laws and regulations of other governments. It also includes various restrictions put forth by the GovGuam enabling statutes. Included in this restriction are reserves for prior appropriations continued.

O. Fund Equity/Net Assets, Continued

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

The unreserved fund balances for the governmental funds represent the amount available for budgeting future operations. The reserve for related assets for the primary government's individual major governmental funds and nonmajor governmental funds in the aggregate as of September 30, 2004, are as follows:

	General	Federal Grants	Solid Waste Operations	Nonmajor Governmental Funds	Totals

P. Capital Projects Funds

The use of the Capital Projects Funds was initiated as of September 30, 1983, and is utilized for funding derived primarily from appropriations from the U.S. Government and through issuance of bonds. Capital expenditures related to projects funded with local revenues are reported in the fund where appropriated.

Q. Compensated Absences

Public Law 27-005 was enacted in February 2003 amending the accumulation of annual leave. The statute amended the vacation rates employees are credited to 104 and 156 hours per year, depending upon their length of service.

1. One-half day (4 hours) for each full bi-weekly pay period in the case of employees with less than five (5) years of service
2. Three-fourths day (6) hours for each full bi-weekly pay period in the case of employees with more than five (5) years of service.

The statute further amended the maximum accumulation of such vacation credits from 480 to 320 hours. Employees who have accumulated hours in excess of the 320 hours shall have up to September 30, 2004, to use the excess amount of leave or that portion permitted to be credited to sick leave and the remainder of excess leave will be lost. It is not known at this time the impact this will have on the basic financial statements.

Vacation pay is convertible to pay upon termination of employment. Compensated absences are recorded as a long-term liability in the statement of net assets. Amounts to be paid during the next fiscal year are reported as current. For the governmental fund financial statements, vested or accumulated vacation and sick leave expected to be liquidated with expendable available financial resources are reported as expenditures and fund liabilities.

T. New Accounting Standards

During fiscal year 2004, GovGuam implemented GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units (an amendment of GASB Statement 14)*, and GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation*. GASB Statement No. 39 provides additional guidance on GASB Statement No. 14, in determining whether an entity should be reported as a component unit based on the nature and significance of their relationship with a primary government. GASB Statement No. 46 establishes and modifies requirements of GASB Statement No. 34 related to restrictions of net assets resulting from enabling legislation.

For fiscal year 2005, GovGuam will be implementing GASB Statement No. 40, *Deposit and Investment Risk Disclosures (an amendment of GASB Statement No. 3)*, and GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. As an element of interest risk, GASB Statement No. 40 requires certain disclosures of investments that have fair values that are highly sensitive to changes in interest rates. GASB Statement No. 42 establishes standards for impairment of capital assets when its service utility has declined significantly and unexpectedly. Management does not believe that the implementation of these statements will have a material effect on the financial statements of GovGuam.

In May 2004, GASB issued Statement No. 44, *Economic Condition Reporting: The Statistical Section, an amendment to NCGA Statement 1*. GASB Statement No. 44 improves the understandability and usefulness of statistical section information and adds information from the new financial reporting model for state and local governments required by GASB Statement No. 34. The provisions of this Statement are effective for periods beginning after June 15, 2005. Management does not believe that the implementation of this statement will have a material effect on the financial statements of GovGuam.

In June 2004, GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. GASB Statement No. 45 establishes standards for the measurement, recognition, and display of other postemployment benefits expense/expenditures and related liabilities, note disclosures, and, if applicable, required supplementary information in the financial reports of state and local governmental employers. The provisions of this Statement are effective for periods beginning after December 15, 2008. Management does not believe that the implementation of this statement will have a material effect on the financial statements of GovGuam.

U. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results may differ from those estimates.

(2) Investments

GASB Statement No. 3 requires government entities to categorize investments to give an indication of the level of credit risk assumed by the entity at year-end. The three categories are described below:

Category 1	Insured or registered, or securities held by GovGuam or its agent in GovGuam's name;
Category 2	Uninsured and unregistered, with securities held by the broker's or dealer's trust department or agent in GovGuam's name; or
Category 3	Uninsured and unregistered, with securities held by the broker or dealer, or by its trust department or agent but not in GovGuam's name.

Investments of the primary government, totaling \$17,647,793, are comprised of U.S. Government debt securities and commercial paper held by GovGuam's trustees with maturity dates in excess of ninety days. These investments are classified as Category 1 investments. Of this amount, \$9,527,793 is held and administered by GovGuam's trustees in accordance with various bond indentures for the purpose of funding debt service requirements and future capital projects, which amount to \$9,009,000 and \$518,793, respectively.

(3) Long-Term Obligations

As of September 30, 2004, the primary government had the following long-term debt outstanding:

Limited Obligation (Section 30) Bonds, 2001 Series A (original issue of \$76,895,000), varying interest rates at 3.25% - 5.5% per annum, payable semiannually in June and December, principal fund payments due in varying annual installments commencing with a payment of \$6,220,000 in December 2002 and increasing to \$9,565,000 in December 2011. The bonds have been issued for the purpose of providing money to repay the outstanding amounts of certain debt, including the 1989 Water System Revenue Bonds, the debt of the Guam Memorial Hospital Authority and the voluntary service debt.	\$ 64,240,000

The 2001 bonds are serial bonds and were issued in fully registered form in denominations of \$5,000 or any integral multiple thereof, and are subject to redemption prior to their stated maturity, at the option of GovGuam, from any source of available funds, on any date on or after May 1, 2011.

39,770,000

Limited Obligation Infrastructure Improvement Bonds, 1997 Series A (original issue of \$76,275,000), varying interest rates at 4.75% - 5.5% per annum, payable annually in November, principal fund payments due in varying annual installments commencing with a payment of \$900,000 in November 1999 and increasing to \$4,625,000 in November 2017. The 1997 bonds are serial bonds and were issued in fully registered form in denominations of \$5,000 or multiples thereof.

60,110,000

Promissory note payable to the Farmers Home Administration in the amount of \$11,000,000, interest at 7.75% per annum, principal and interest payable commencing December 1990 in quarterly installments of \$225,390. The note is collateralized by real property.

4,863,863

Note payable to a local bank in the amount of \$10,000,000, interest rate is based on the banks' index rate and varies from 4.75% - 8% per annum, principal and interest payable commencing October 2003 in annual installments of \$1,281,818. This loan was used to fund public assistance programs and for the payment of the GovGuam Department of Education's monthly allotment backlog. The note is collateralized by the pledge and assignments of Section 30 revenues.

As of September 30, 2004, \$36,505,122 has been accumulated in the Debt Service Funds to service the General Obligation and Special Revenue Bonds. Additionally, the debt service funds contain \$2,070,182 of resources that management has designated to be used for debt service. However, a legal opinion has been solicited, but not received, that will determine whether this amount should be returned to the General Fund. There are a number of limitations and restrictions placed on the bonds as specified below:

General Obligation Bonds:

General Obligation Bonds 1993 Series A - This bond series was issued on September 15, 1993 for the purpose of implementing certain capital projects comprised of new or renovated educational facilities. In accordance with the bond indenture, the Depository created a Construction Fund, the amounts therein to be used solely for (1) the purpose of implementing capital projects pursuant to the Act, (2) the payment of costs of issuance, and (3) the payment of principal and interest on the bonds. On or before the fifth day of each calendar month, GovGuam deposits into a Bond Fund held by the Trustee, an amount equal to the amount necessary to increase the amount in the Bond Fund to the aggregate amount for all outstanding bonds of all unpaid interest, principal and Mandatory Sinking Account payments which is required to be transferred to the Bond Fund.

General Obligation Bonds 1994 Series A - This bond was issued on August 15, 1994 for the purpose of discharging GovGuam's obligation to pay refunds owed to taxpayers who have filed their income tax forms with GovGuam. Final payment for principal and interest occurred on August 15, 1999. Therefore, no further obligations with regard to the bond covenants exist for this debt service fund as of September 30, 2004. However, an interfund receivable balance with the general fund and a corresponding credit to reserve for related assets is recorded in this fund until a final decision is made on the disposition of the fund balance.

General Obligation Bonds, Continued:

General Obligation Bond 1995 Series A - This bond was issued on June 1, 1995 for the purpose of discharging obligations for income tax refunds, supplemental retirement benefits, transfer payments to government agencies and to vendors to the extent obligations were incurred or previously obligated by GovGuam prior to May 15, 1995 and to pay the costs of issuance of such borrowing. The Depository has created a Bond Fund to be used solely (1) to pay General Fund expenses pursuant to the indenture, (2) to pay costs of issuance, and (3) to be held as a reserve for the payment of principal of and interest on the Bonds. The amount in the Bond Fund as of September 30, 2004 is \$4,067,054.

Public Law 22-19 has authorized the creation of the Territorial Education Facilities Fund that requires that all real property tax revenues received shall be deposited into this fund. While such deposits are not pledged, these shall be used to pay the principal and interest on bonds issued for Capital Improvement Projects provided for under the General Obligation Bonds 1993 Series A indenture.

Public Law 23-14 was created to authorize the Governor to issue general bonds for the purposes of constructing and refurbishing territorial educational facilities, paying certain General Fund expenses, and creating a funding source for repayment of such bonds.

Management of GovGuam believes that it is in compliance with all significant limitations and restrictions of the bond indentures as of September 30, 2004.

Indentures to the 1997 Series A Bonds:

The 1997 Series A bonds are limited obligations of GovGuam payable entirely from a first lien and pledge of revenues. Revenues are defined in the bond indenture as all amounts received from the imposition of hotel occupancy taxes. GovGuam has pledged to maintain these revenues at a level sufficient to equal the sum of 1.25 times the aggregate debt service becoming due within the next fiscal year; plus amounts required to be deposited pursuant to the tax certificate for the bonds and amounts required to meet the bond reserve fund requirement.

In accordance with the bond indenture, the depository has created a trust account known as the "Construction Fund." Amounts deposited therein are used to (1) implement capital improvement projects prescribed in Public Law 29-137, adopted on January 2, 1997, (2) pay the cost of bond issuance and letter of credit fees and (3) pay the principal and interest on the bonds should other sources be insufficient.

All pledged revenues are to be deposited into a special account entitled the "Revenue Fund." In addition, all interest and other profit derived from investments, except those in the "Construction Fund," are to be transferred monthly to the "Revenue Fund." Transactions of the "Revenue Fund" account are accounted for in the Debt Service Fund. On the twentieth day of each month following the month the revenues are deposited, the depository is to deposit into the following funds (all accounted for within the Debt Service Fund) the specified amounts in the following order of priority:

Indentures to the 1997 Series A Bonds, Continued:

- . Bond Fund - an amount equal to the sum of (1) the aggregate amount of interest to accrue on the bonds during the next succeeding calendar month upon all bonds then outstanding, plus (2) an amount which, if paid in equal monthly installments in each month over the semiannual or annual period prior to the next principal date, would aggregate to the amount of principal then becoming due and payable on the outstanding serial bonds on such principal payment date, plus (3) an amount which, if paid in equal monthly installments in each month over the semiannual or annual period prior to the next principal date, would aggregate to the amount of the mandatory sinking fund payments required to be paid for the outstanding term bonds on such principal payment date.
- . Rebate Fund - an amount, if any, needed to be deposited therein pursuant to the rebate certificate with respect to the 1997 Series A Bonds.
- . Bond Reserve Fund - an amount, if any, needed to equal to the lesser of (1) the maximum annual debt service, (2) 10% of the proceeds received from the sale of the bonds and (3) 125% of average annual debt service on the bonds or an amount as may be specified by supplemental indentures providing for the issuance of a series of bonds. The maximum annual debt service is defined as the sum of (1) the interest falling due on the then outstanding bonds, (2) the principal amount of the outstanding serial bonds falling, due by their terms, and (3) the aggregate amount of all mandatory sinking payments required; all as computed for the bond year in which such sum shall be the largest. Amounts in the Bond Reserve Fund are to be used for the purpose of making up any deficiency in the Bond Fund.
- . Bond Expense Fund - an amount equal to the amount of bond expenses estimated by the trustee to be due and payable during the next succeeding calendar month.

The General Obligation Bonds constitute the valid and legally binding general obligation of GovGuam, and GovGuam pledges its full faith and credit for the punctual payment of principal and interest on the bonds. Additionally, certain revenues are specifically pledged to secure the payment of said principal and interest. As defined by the terms of the bond indenture, these revenues include the following: (1) all amounts received by GovGuam as proceeds of Federal income taxes derived from Guam ("Section 30" monies); (2) customs duties collected by GovGuam derived from Guam; (3) the proceeds of all taxes collected under the internal revenue laws of the United States on articles produced in Guam and transported to the United States, its Territories or possessions, or consumed in Guam; and (4) the proceeds of any other taxes which may be levied by Congress on the inhabitants of Guam. "Revenue" further includes all interest, profits or other income derived from investments in any fund or account created pursuant to the bond indenture.

Indentures to the 2001 Series A Bonds (Special Revenue Bonds):

The 2001 Series A bonds are limited obligations of GovGuam payable entirely from a first lien and pledge of revenues. Revenues are defined in the bond indenture as all amounts received from the imposition of vehicle registration fees, license fees and certain penalties, and from taxes on the sale of gasoline, aviation and diesel fuels. GovGuam has pledged to maintain these revenues at a level sufficient to equal annual budgeted highway maintenance and operating expenses plus 1.2 times the aggregate debt service becoming due within the next fiscal year.

Transactions of the "Revenue Fund" account are accounted for in the Debt Service Fund. On the fifth day of each month following the month the revenues are deposited, the depository/trustee is to deposit into the following funds the specified amounts in the following order of priority:

Bond Fund - an amount equal to the sum of (1) the aggregate amount of interest to accrue on the bonds during the next succeeding calendar month upon all then outstanding bonds, plus (2) an amount which, if paid in equal monthly installments in each month prior to the next May 1, would aggregate to the amount of principal then becoming due and payable on the outstanding serial bonds on such May 1, plus (3) an amount which, if paid in equal monthly installments in each month prior to the next May 1, would aggregate to the amount of the mandatory sinking fund payments required to be paid for outstanding term bonds on such May 1. Amounts in the Bond Fund are to be used to pay bond interest and the principal of the serial and term bonds. Funds in this account are accounted for within the Debt Service Fund.

Bond Reserve Fund - an amount, if any, needed to equal the maximum annual debt service. The maximum annual debt service is defined as the sum of (1) the interest falling due on the then outstanding bonds, (2) the principal amount of the outstanding serial bonds falling due by their terms, and (3) the aggregate amount of all mandatory sinking fund payments required; all as computed for the bond year in which such sum shall be the largest. Amounts in the Bond Reserve Fund are to be used for the purpose of making up any deficiency in the Bond Fund. Funds in this account are accounted for within the Debt Service Fund.

Maintenance and Operation Fund - the amount of maintenance and operation expenses budgeted by GovGuam to be paid during the next succeeding calendar month. Amounts in the Maintenance and Operation Fund are to be used for the purpose of paying GovGuam highway maintenance and operation costs. This account is a component of the Debt Service Fund.

Maintenance and Operation Reserve Fund - an amount to increase the balance therein equal to 1.5% of the original aggregate principal amount of bonds of each series having bonds outstanding. Amounts in the Maintenance and Operation Reserve Fund are to be used to pay GovGuam highway maintenance and operation expenses should amounts in the Maintenance and Operation Fund be insufficient. Accounting for this Fund is performed within the Debt Service Fund.

Surplus Fund - the balance remaining in the revenue fund after all of the foregoing deposits. Amounts in the Surplus Fund are to be used for the purpose of paying other costs and expenses budgeted by GovGuam. Transactions to and from the Surplus Fund are accounted for in the Debt Service Fund.

(4) Commitments and Contingencies

A. Federal Grants

GovGuam has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. Questioned costs for the 2004 and prior year audits aggregate to a material amount. If the questioned costs were ultimately disallowed, the general fund would be liable for the return of such funds. However, no liability, which may arise from the ultimate outcome of this matter, has been provided for in the accompanying basic financial statements.

Audits of federal program funds are also performed by various federal agencies. If the audit results in cost disallowances, the general fund may be liable. However, management does not believe that resolution of this matter will result in a material liability. Therefore, no liability for any amount, which may ultimately arise from these matters, has been recorded in the accompanying basic financial statements.

Fines and penalties may also be imposed by various federal agencies for violations of certain regulations. However, no provision for any amount has been recorded in the accompanying basic financial statements, as it is not possible to predict a reasonable estimation of these fines and penalties.

(4) Commitments and Contingencies, Continued

B. Earned Income Tax Credit (EITC) Refunds

In June 2004, GovGuam agreed to pay \$60 million over nine years in settlement of unpaid EITC refunds from 1996. The settlement plan allowed for non-interest bearing tax credit refunds amounting to \$20 million over the next year, of which \$3 million shall be paid into the EITC Fund within thirty days from the approval of the settlement agreement, and approximately \$1.5 million per month for eleven months following the first installment. The remaining balance is to be paid at approximately \$5 million over the next eight years, beginning June 30, 2006. As of September 30, 2004, a tax liability of \$60 million has been recorded for this settlement agreement. Subsequent to September 30, 2004, GovGuam reached a new settlement agreement replacing the June 2004 agreement whereby GovGuam agreed to pay up to \$90 million. According to the agreement, GovGuam will be required to set aside \$15 million each into the following six categories:

Tax years 1995, 1996, 1999, 2000

Tax year 1998

Tax year 2001

Tax year 2002

Tax year 2003

Tax year 2004

Ratification of the revised settlement agreement, including payment terms, is pending approval by the District Court. GovGuam is presently unable to ascertain the total potential EITC refunds under this revised settlement agreement. Accordingly, no provision for any tax liability in excess of the \$60 million already recorded that may result has been made in the accompanying basic financial statements.

C. Sick Leave

It is the policy of GovGuam to record the cost of sick leave when leave is actually taken and a liability is actually incurred. Generally, sick leave is paid only when an employee is absent due to illness, injury or related-family death. For this reason, no sick leave liability is recorded at September 30, 2004. The estimated accumulated amount of unused sick leave at September 30, 2004, is \$63,056,446, of which \$8,119,121 may be convertible by the GovGuam Retirement Fund Defined Contribution Retirement System (DCRS) employees upon retirement. Sick leave balances are only available for the line departments of the executive branch.

D. Litigation

GovGuam is unable to assess the likelihood of potential liabilities related to claims outstanding as of the year ended September 30, 2004. The Attorney General is of the opinion that GovGuam's maximum liability in total for these cases is material to the financial statements as of September 30, 2004. However, it is not possible to predict a reasonable estimation of these claims to be paid through the claims process, as set forth in footnote 4E below, and therefore, no provision for any liability that may result has been made in the accompanying basic financial statements.

GOVERNMENT OF GUAM

Notes to Financial Statements

(4) Commitments and Contingencies, Continued

E. Self-Insurance

GovGuam does not purchase insurance covering potential risks; it is substantially self-insured against claims for negligence and catastrophic losses. In the event that losses arise from such claims or disasters, the General Fund would be required to pay the majority of these losses. An annual appropriation is made to the Government Claims Fund and then valid claims are paid out against the appropriated amount. GovGuam has not experienced material prior year losses as a result of this policy. Virtually all discretely presented component units have some form of commercial insurance to insure against risk of loss such as property, liability and typhoon.

F. Deposits with Treasurer

Insurance companies doing business on Guam, are required under sections 43102 and 43202 of the Government Code of Guam, to deposit with the Commissioner of Insurance an amount equal to the minimum amount of paid-in-capital required under Article III of Title 39 of the Government Code. The deposit requirement is met with any good and sufficient bond as set by the Commissioner. Bonds currently take various forms and range from a surety bond to bank certificates of deposit. Deposits are likewise required of foreign banks and foreign exchanges. At September 30, 2004, approximately \$13,473,213 was held by GovGuam in bonds as security against possible claims.

G. Medicare

GovGuam did not withhold or remit funds to the U.S. Social Security System for the health insurance component. GovGuam has since reevaluated this position and has commenced withholding such amount from its employees beginning in October 1998. If GovGuam is found to be liable for prior year nonpayment an indeterminate liability could result. Therefore, no liability for any amount, which may ultimately arise from this matter, has been recorded in the accompanying financial statements.

H. Commitments

GovGuam and its discretely presented component units have commitments under contracts at September 30, 2004.

I. Tax Drawback

On September 20, 2004, GovGuam settled a liquid fuel tax refund dispute with a fuel supplier in the amount of \$6,583,382, which resulted in a gain of \$5,893,926 plus \$1.7 million in previously unrecorded interest that was waived. Under the terms of the agreement, the refund will be paid over a period of three years and will involve the offset against future liquid fuel tax payments.

J. Ordot Dump

On February 11, 2004, the U.S. Environmental Protection Agency and the U.S. Department of Justice filed a Consent Decree in the United States District Court of Guam. The consent decree includes deadlines for the opening of a new landfill and implementing an Ordot Dump closure plan. Within a period of forty-five months, GovGuam is required to complete an environmental impact statement analyzing at least three potential new landfill locations; complete design, permitting, and construction for the selected landfill location; begin operations at the new landfill; and properly and permanently close the Ordot Dump. In the event that GovGuam fails to meet any of the stipulated deadlines under the consent decree, GovGuam will be liable for civil penalties. Although closure and post closure care costs will be paid only near or after the date that Ordot Dump stops accepting waste, GovGuam's governmental activities reports a portion of these closure and post closure care costs as an expense in each period based on landfill capacity used as of each balance sheet date. The \$16,641,000 reported as landfill closure and post closure care liability at September 30, 2004 within the accompanying basic financial statements, represents the cumulative amount reported based on 100 percent capacity. This amount is based on what it would cost to perform all closure and post closure care in 2004. GovGuam expects to close the landfill within the required timeframe. Actual cost may be higher due to inflation, changes in technology or changes in regulations.

(5) Unfunded Retirement Fund Contributions

As of the fiscal year ended September 30, 1994, the GovGuam Retirement Plan was a defined benefit, single-employer contributory pension plan created and administered by GovGuam. Membership in the Plan was mandatory for all full-time employees, except for those compensated on a fee basis, independent contractors, and persons aged 60 or over upon employment. The Plan is administered by the GovGuam Retirement Fund to which all funds and agencies, including component units, as well as employees who are members of the Plan, contribute a fixed percentage of the payroll. Most employees may retire with full benefits at age 60 with at least 10 years of service, or after 25 years of service, regardless of age. Vesting of benefits is optional for employees with 3 to 19 years of service, but is mandatory for employees with 20 or more years of service.

On September 30, 1995, the DCRS Plan was created. All employees hired after September 30, 1995 will be participants in the DCRS plan. The GovGuam Retirement Fund Defined Benefit (DB) Plan will become a closed group.

As a result of the most recent actuarial valuation performed as of September 30, 2002, it has been determined that for the year ended September 30, 2004, a minimum combined employer and employee contribution rate of 30.31% (9.5% for employees and 20.81% for employer) of covered Defined Benefit Plan payroll is required to appropriately fund the current cost, amortize prior service costs and provide for interest on the unfunded accrued liability.

The latest actuary's report indicates that the Plan has 6,807 active members, 4,640 service retirees, 509 disability retirees, 684 spouse pensioners and 261 child pensioners.

GOVERNMENT OF GUAM

Notes to Financial Statements September 30, 2004

(5) Unfunded Retirement Fund Contributions, Continued

The Plan utilizes the actuarial cost method termed "entry age normal" with an assumed rate of return of 7.5% and an assumed salary scale increase of 5.5% per annum. The actuarial valuation performed as of September 30, 2002, did not provide a breakdown of actuarial present value of vested and non-vested accumulated plan benefits by sponsor or net assets available for benefits by sponsor. If the actuarial valuation was performed for the primary government, as a separate sponsor, the accrued unfunded liability at September 30, 2004, may be materially different than that recorded in the accompanying financial statements.

Contributions into the DCRS plan by members are based on an automatic deduction of 5% of the member's regular base pay. The contribution is periodically deposited into an individual annuity account within the DCRS. Employees are afforded the opportunity to select from different annuity accounts available under the DCRS.

Statutory employer contributions into the DCRS plan for the year ended September 30, 2004, are determined using the same rate as the DB plan. Of the amount contributed by the employer, only 5% of the member's regular pay is deposited into the member's individual annuity account. The remaining amount is contributed towards the unfunded liability of the defined benefit plan.

Members of the DCRS plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

GovGuam has adopted the provisions of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employees*. As the result of Public Law 21-03, the University of Guam's and the Guam Community College's unfunded pension liability is included within the governmental activities in the accompanying statement of net assets, which amounts to \$3,724,396 and \$2,438,361, respectively, as of September 30, 2004. Furthermore, as a result of Public Law 26-70, the Guam Telephone Authority's unfunded pension liability is included within the governmental activities in the accompanying statement of net assets, which amounts to \$2,153,066 as of September 30, 2004.

(6) Subsequent Event

On February 4, 2004, the Legislature adopted Public Law 27-63 to amend certain sections of Public Law 26-70. The amendments were made to account for current economic and market concerns and permits the Guam Telephone Authority (GTA) to proceed with the privatization process. Bid openings for the privatization of GTA were held on June 7, 2004. On August 31, 2004, GTA's Board of Directors approved the sale of the assets and business of GTA to TeleGuam Holdings, LLC. On November 1, 2004, the Governor signed Public Laws 27-109 and 27-110. Public Law 27-109 was enacted to approve the agreements and transactions to privatize GTA and to amend and reenact certain sections of Public Laws 26-70 and 27-63 to effectuate the privatization of GTA. Public Law 27-110 was enacted to promote competition and reduce regulation in order to secure lower prices and higher quality telecommunications services. The closing date was December 31, 2004 at which time TeleGuam Holdings, LLC completed its acquisition of GTA.

Loans receivable of the nonmajor component units are comprised of loans issued by the Guam Housing Corporation, which are collateralized by first mortgages on real estate, and are due in varying monthly installments and interest rates, with maturities extending to 2024. Significant portions of GHC's loans outstanding are assigned as collateral on notes payable.

Other receivables includes restricted receivable balances recorded by GHC in the amount of \$2,498,743 as of September 30, 2004, that relate to loans issued under the Community Affordable Housing Action Trust, Hazard Mitigation Program, Down-payment and Closing Assistance Program, and the Sagan Linayan Project. These programs are interest-free loans solely to assist first-time homeowners for purposes of retrofitting for typhoon proof homes.

Indentures to the GIAA 2003 Series A Bonds:

The General Revenue Bonds, Series 2003, including interest, are payable solely from and are secured by a pledge of revenues under the indenture. The bonds are collateralized by a lien upon and pledge of revenues to be received by GIAA, the trustees and the depository. Neither the payment of the principal of the bonds, nor any interest thereon, is a debt, liability or obligation of GovGuam.

The bond indentures include certain debt service and reserve requirements including the requirement that net revenues as defined in the bond indentures equal at least 125% of the annual debt service.

Indentures to the GPA 1993 and 1999 Series Bonds:

All gross revenues of GPA have been pledged to repay the 1993 and 1999 series bond principal and interest. Discounts associated with 1993 and 1999 bond series are being amortized using the effective interest method over the lives of the bonds.

On September 28, 2000, GPA entered into a Bond Reserve Fund Forward Delivery Agreement (the agreement) with the US Bank Trust National Association and Bank of America. In connection with the agreement, GPA received cash totaling \$13.5 million in October 2000 representing the present value amount of interest income on certain bond proceeds invested by GPA.

Indentures to the GPA 1993 and 1999 Series Bonds, Continued:

Based on the terms of the agreement, gross proceeds totaled \$17,521,029 while GPA incurred termination fees and closing costs totaling \$3,530,000 and \$1,250,529, respectively. The \$13.5 million in net proceeds received included \$759,500 of interest income earned as of the closing date of the agreement. The gross proceeds, termination fees and closing costs will be deferred and amortized on a straight line basis over the average remaining life of the 1993 and 1999 bonds. The gross proceeds, net of amortization, are reflected as deferred revenue in the amount of \$15,768,476 in the accompanying statement of net assets. The termination fees and closing costs amortization are reflected as deferred charges in the accompanying statement of net assets.

Indentures to the UOG Bonds:

Principal and interest are payable from, and are categorized by, a first charge and lien on the net revenues derived by the University Dormitory Revenue Fund, as defined in the bond resolution. The bonds are not an obligation of GovGuam, but are solely that of the University Dormitory Revenue Fund. As a requirement of the bond resolution, the University Dormitory Revenue Fund is to transfer semi-annually on March 15, and September 15, to the University Dormitory Interest and Redemption Fund, a sum equal to sixty-two and one-half percent of the aggregate amount of principal and interest becoming due on the bonds during the next succeeding twelve months until such time as the funds in the Interest Redemption Fund are sufficient to pay the interest and one-half of the principal next coming due, and to provide a reserve in an amount equal to the average annual debt service which approximates \$92,770. The bond resolution also requires that when the annual debt service reserve has been satisfied, the Fund is to deposit into an account, to the extent available, up to \$14,000 per year to the credit of the repair and replacement reserve account.

Indentures to the GTA Bonds:

Outstanding RUS, RTB and FFB bonds are special obligations of GTA payable from and collateralized by the proceeds of the bonds, all revenues, and all funds created by the bond indenture. These bonds do not constitute a general indebtedness of GTA or GovGuam. Revenues are defined in the bond indenture as all revenues, income, rents and receipts derived from the ownership, leasing and operation of the telephone system, the proceeds of any insurance covering business interruption loss relating to the system, and interest or dividends received on any moneys or securities (other than the Development Fund) held pursuant to the indenture and paid to the Revenue Fund.

In accordance with the indenture, GTA created the following trust accounts to be held and administered by the Trustee for the bondholders:

Development Fund - the proceeds of all bonds are to be deposited in the Development Fund. All costs of construction (including acquisitions) of all facilities are to be paid from this fund. Insurance proceeds from physical loss of or damage to any facilities of the system, and proceeds from contractors' performance bonds are to be deposited into this fund. Proceeds from sale or lease-sale of any facilities included in the system shall be maintained in this fund and used to finance future construction.

Revenue Fund - all revenues are to be deposited in the Revenue Fund. All costs relating to the system, in addition to the costs for the payment of which moneys from time to time shall have been deposited in the Development Fund and in the Debt Service Fund, are to be paid from the Revenue Fund. The Trustee shall transfer funds from the Revenue Fund to the Debt Service Fund on or before the twenty-fifth day of each calendar month, to the extent such amount is available in the Revenue Fund after paying the monthly operating expenses with respect to the system, an amount equal to one-twelfth of the Twelve-Month Debt Service Requirement, as defined in the Indenture. Deficiencies in any month shall be transferred to the Debt Service Fund on the earliest date on which funds become available in the Revenue Fund.

Debt Service Fund - the Trustee, on behalf of GTA, shall make all payments of principal and interest on the bonds from the Debt Service Fund.

Indentures to the GHC Series 1998 Bonds:

The bonds are limited obligations of GHC payable from the revenues and other assets pledged for the payment thereof and are not a lien or charge upon the funds of GHC, except to the extent of the pledge and assignment set forth in the Indenture and in the bonds. The bonds do not constitute indebtedness or a loan of credit of GovGuam or the United States of America, within the meaning of the Organic Act of Guam or statutory provisions. Neither the faith and credit nor the taxing power of GovGuam is pledged to the payment of the principal or interest on the bonds. GHC has no taxing authority. The bonds are not a debt, liability or obligation of GovGuam, and GovGuam is not liable for the payment thereof.

The bonds maturing in September 2031 are not subject to optional redemption prior to maturity. The bonds maturing after September 2008 but before September 2021 are subject to redemption on any date on or after September 2008, at the option of GHC, in whole, or in part from such maturities as are determined by GHC, from any source of available monies, at the redemption prices set forth in the Indenture.

The bonds maturing in September 2018, in September 2021, and in September 2031 are subject to mandatory redemption prior to maturity at a redemption price equal to 100% of the principal amount redeemed, plus accrued interest thereon to the date fixed for redemption, from sinking fund installments which are required to be made in amounts sufficient to redeem on dates set forth in the Indenture.

GHC had expended bond proceeds and originated loans totaling \$6,249,012 as of September 30, 2004, for which the Trustee had fully disbursed such moneys from the Program Fund for the acquisition of Mortgage-Backed Securities.

The bond indenture contains certain restrictive covenants, including restrictions on the use of bond funds. Management of GHC is of the opinion that GHC was in compliance with all significant covenants except for the full non-origination of the entire \$50 million mortgage revenue bond as of September 30, 2004.

Leases

Guam Power Authority (GPA):

In September 1996, GPA entered into agreements to purchase electricity produced by generating plants constructed or refurbished and operated by three companies. The agreements have twenty-year terms. At the end of the agreements, ownership of the plants and the plant improvements reverts to GPA. Under each of the agreements, GPA pays capacity and operation and maintenance costs. GPA retroactively implemented the accounting guidance of EITF No. 01-8, effective October 1, 2001. EITF No. 01-8 provides guidance in determining when purchase agreements may be subject to lease accounting. In applying EITF No. 01-8, GPA determined that the agreements to purchase electricity were in fact capital leases to acquire the plants and that the capacity payments made under the agreements were lease payments. The operations and maintenance payments under the agreements continue to be reflected as operation and maintenance expenses.

The leases have effective interest rates ranging from 8.6% - 14.2%. Future capacity payments under these agreements are as follows:

GPA also leases fuel storage tanks for a monthly fee of \$100,000 beginning September 1998, increasing to \$107,500 in March 2003. The initial term of the lease is for a period of 10 years with an option to renew for an additional 5-year period, expiring on September 2013, at an increased monthly lease fee of \$115,650.

Land Transfers

In fiscal year 2002, the Guam Legislature enacted legislation that provides for a study for the potential transfer of certain land entrusted to GIAA to original landowners. Final legislative action to implement the transfer has not occurred and it is presently not determined if such action will occur. The financial impact of any such actions on GIAA is presently not determinable.

Environmental Remediation

On August 4, 2001, the Tanguisson Pipeline in the Mongmong/Toto area ruptured spilling black oil that contaminated an approximately 60,000 square foot area. The pipeline is operated by GPA and owned by the United States Navy. In 2004, GPA incurred clean-up costs totaling \$2,125,327. GPA has filed a claim with its insurance company for the costs of clean up less deductibles; however, reimbursement by the insurance company is considered unlikely.

Aircraft Crash

In August 1997, an airliner crashed on approach to the Airport runways, resulting in over two hundred fatalities and numerous injuries. In 1999, six claims relating to the crash were filed against GIAA. GIAA has denied all six claims. GIAA understands that the claimants have settled their claims with the Airlines and the U.S. Government and do not intend to pursue any action against GIAA. If the claimants decide to further pursue these actions, GIAA's insurer will handle defense. Management of GIAA is of the opinion that GIAA will incur no liability as the result of these claims.

Typhoon Damages

On July 5, 2002 and December 8, 2002, the island of Guam was struck by Typhoon Chata'an and Supertyphoon Pongsona, respectively. GovGuam has not yet performed an assessment of typhoon-related damages and, accordingly, a liability for accrued typhoon costs is presently not determinable.

A summary of the significant typhoon damages, net of anticipated federal reimbursements, for the discretely presented component units is as follows:

GIAA - estimated repair costs to GIAA's facilities as of September 30, 2004, amounted to \$6,429,763. As this amount is an estimate, actual costs may be materially different. In addition, the security fence surrounding GIAA's facilities was severely damaged and requires replacement. The estimated cost to replace and upgrade the security fence is approximately \$19 million. Approximately 90% of this replacement cost is expected to be covered by a Federal Aviation Administration grant.

GPA - estimated repair costs to GPA's utility plant and equipment as of September 30, 2004, amounted to \$9,373,863.

UOG - estimated repair costs to UOG's buildings and equipment as of September 30, 2004, amounted to \$1,335,175.

Guam Telephone Authority (GTA) - estimated repair costs to GTA's telecommunications system as of September 30, 2004, amounted to \$7,601,000. GTA expects much of the damage to be covered by insurance or reimbursements from FEMA. For the year ended September 30, 2004, typhoon casualty loss, in excess of recoverable amount totaled \$1,162,613.

Port Authority of Guam (PAG) - estimated repair costs to PAG's port facilities as of September 30, 2004, amounted to \$5,775,000. PAG's insurance coverage is expected to absorb the final loss amount, less \$3.0 million insurance deductible and \$2.5 million of required self-insurance. Management of PAG intends to seek reimbursement from federal sources for a portion of the deductible and self-insurance amounts.

Environmental Monitoring

In September 2000, the Navy transferred 1,417 acres of property to GIAA and GovGuam at no cost. In November 2000, the Navy paid GIAA \$10 million. In exchange for the payment, GIAA and GovGuam agreed to complete certain environmental monitoring work on the property even if the cost of the environmental monitoring work exceeds the \$10 million remitted by the Navy. Under this cooperative agreement, the United States Navy may terminate or suspend the agreement if GIAA and GovGuam fail to complete such monitoring work. The future cost of the environmental monitoring work is presently not determinable. Accordingly, no loss, if any, that may result from the matter, has been recorded in the accompanying financial statements for this transaction.

Guam Waterworks Authority (GWA) EPA Violation

In December 2002, the United States Government filed a complaint against GWA and GovGuam for alleged violations under the Federal Clean Water Act (CWA) and the Safe Drinking Water Act (SDWA). Because of GWA's non-compliance with the National Primary Drinking Water Regulations, the U.S. Government is seeking both civil penalties and injunctive relief to address such non-compliance. GWA and the U.S. Department of Justice, Environmental and Natural Resources Division, mutually agreed in the form of Stipulated Order to resolve the violation issues. On June 5, 2003, Stipulated Order For Preliminary Relief was filed before the District Court of Guam. The Stipulation requires implementation of short-term projects and initial planning measures by GWA. GWA is required to submit a final financial plan in the Master Plan, that generates sufficient revenues to cover the cost of all compliance activities and deliverables required by the Stipulated Order for Preliminary Relief, as well as any other anticipated expenses, including any measures necessary to ensure compliance with the CWA and the SDWA and costs related to the infrastructure improvements identified in the Master Plan.

(8) Special Items

Special items includes a change in tax refund liability of \$17,993,424, which relates to over provisioning of tax refunds in prior years, and \$5,893,926, which relates to a gain from a tax drawback settlement. These amounts have been reflected as special items within the accompanying financial statements as they are considered infrequent in occurrence.

GOVERNMENT OF GUAM

Note to Required Supplementary Information – Budgetary Reporting September 30, 2004

Budgetary Process

Legislation requires the Governor to present a proposed budget to the Legislature at the beginning of each annual session. The Legislature enacts the budget through passage of specific departmental appropriations. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the Territorial financial plan for the ensuing fiscal year. Supplemental appropriations for specific purposes are made throughout the year.

Budgetary control is maintained within the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effective with certain executive and legislative branch approval. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Legislature as representing continuing appropriations.

The Budget Act for fiscal year 2004, Public Law 27-29 was approved for the Executive branch and the Legislative branch. Budgets for Special Revenue Funds are generally not submitted. Accordingly, a budget to actual presentation for Special Revenue Funds is not required or presented. Project length financial plans are adopted for capital projects funds.

GovGuam's annual budget has been prepared on a basis, which differs from governmental GAAP. Actual amounts in the accompanying budgetary comparison statements are presented on a basis, which excludes outstanding encumbrances as a budgetary expenditure.

Nonmajor Governmental Funds - Special Revenue Funds September 30, 2004

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. A brief discussion of GovGuam's nonmajor governmental funds - special revenue funds as of September 30, 2004, follows.

1999 SPG Revolving Fund – This fund was created by Public Law 25-01 for planning, conducting and hosting the 1999 South Pacific Games. Disbursement of funds shall take a majority vote of the SPG Commission.

Abandoned Vehicle and Streetlight Fund - This fund is maintained to defray the cost of street lights and to fund the removal of abandoned vehicles. Funding of these programs is provided from a five dollar annual vehicle registration fee and local appropriations.

Accessible Parking Fund - The fund was created by Public Law 18-28 to ensure that disabled persons are given equal access to government offices and services. Revenues are generated from fines collected from those parked illegally in handicapped parking spaces. Expenditures are authorized for maintenance of disabled parking areas.

Agana Fractional Lots Program Fund - The Agana Fractional Lots Program Fund was initially established to account for transactions relevant to the Agana Fractional Lot Program dating back to the 1960s. Such transactions may involve the condemnation and seizure of lands from property owners by GovGuam and the compensation of those seized lands to the property owners.

Air Pollution Control Fund – This fund was created by Public Law 24-40 to provide a coordinated Territory-wide program of air pollution prevention, abatement, and control. Revenues are derived primarily from permit application fees and annual emission fees.

Aquaculture Development and Training Fund - This fund was created by Executive Order 88-023 to cover the costs associated with production relating to the Aquaculture Development and Training Center. Revenues for this fund are generated from the sale of the Center's products, leased equipment and facilities and service fees. The fund is administered by the Department of Commerce.

Autonomous Agency Infrastructure Collections Fund - This fund, created by Public Law 24-14, was created to ensure the health and public safety of the people of Guam and public works. The revenues are derived from the operating surpluses generated by autonomous agencies.

Board of Accountancy Fund - This fund was created for the purpose of regulating aspects of the practice of public accountancy. The Guam Code Annotated Title 22, Subsection 35104(d) states, "all monies collected by the Board ... shall be deposited with the Treasurer of Guam to the credit of the Board." Sources of revenues are from the issuance of certificates and permit fees collected from public accountants and firms practicing public accountancy. Monies shall be expended for administering the Public Accountancy Act of 1990.

Carrier Off-Duty Services Revolving Fund – This fund was created by Public Law 25-138. Charges from this fund are from services performed by Customs and Quarantine Officers, in the performance of their duties on any day of the week upon special request by the Director of Customs and Quarantine on Sundays, holidays, or between the hours of 5:00 p.m. of any other day and 6:00 a.m. of the following day when services are required.

GOVERNMENT OF GUAM

Nonmajor Governmental Funds - Special Revenue Funds, Continued September 30, 2004

Chamorro Commercial Loan Fund – Established in 1993 by Public Law 21-148, the Chamorro Commercial Loan Fund is created through the authority of the Chamorro Land Trust Commission. Loans are to be made available to Chamorro Land Trust lessees or by organizations formed and controlled by lessees for the development of theaters, garages, service stations, markets, stores and other mercantile establishments.

Chamorro Education Assistance Fund – This fund was created within the Chamorro Land Trust Commission to account for funds transferred from the Chamorro Home Loan Fund to be expended on educational projects, after consultation with the University of Guam and the Commission, which shall be directed primarily for the educational improvement of the children of lessees.

Chamorro Home Development Fund – This fund was created within the Chamorro Land Trust Commission to account for funds transferred from the Chamorro Home Loan Fund to be made available, with the prior written approval of the Governor, for construction of sanitary sewage facilities, construction of roads through and over Chamorro homelands, and for other nonrevenue producing improvements.

Vocational Rehabilitation Revolving Fund - This fund was created by Executive Order 87-11 (E.O. 87-11) to be administered by the Department of Vocational Rehabilitation to pay the wages of Guam's severely disabled workers and other expenses necessary for their employment, such as workmen's compensation insurance. Revenues come from monies received from the sale of goods produced or service performed by severely disabled workers.

Water Protection Fund - This fund was created by Public Law 22-47 to provide funding for the administration and implementation and enforcement of the Water Pollution Control Act and regulations promulgated from said Act, for educational programs and grants for research and development, advertisement promotions, and inspections of facilities to prevent or minimize erosion that contributes to pollution of the waters.

Water Research and Development Fund - This fund was created by Public Law 22-47 to conduct water resource research which will contribute to the effective planning and management of Guam's underground and surface water, and to the development of programs which promote the best use of these resources.

Wildlife Conservation Fund - This fund was created to preserve, manage, enhance and protect the Government's wildlife resources and their environment. Revenues are derived principally from the sale of hunting, fishing and harvesting licenses, fees and permits.

Workmen's Compensation Fund - This fund was authorized to be created by Public Law 1-88. Section 37042 of the Government Code of Guam requires a fund sufficient to secure compensation payments under Title XXXIII of the Government Code in respect to employees of GovGuam, its agencies and instrumentalities, including any public corporation. Funds are disbursed upon the order of the Workers Compensation Commission, of which the Director of Labor is the Commissioner.

Youth Tobacco Education and Prevention Fund - This fund was created by Public Law 25-187 to account for 10% of proceeds from the sale and securitization of the allocation under the Master Settlement Agreement to be utilized by the Department of Mental Health and Substance Abuse, for youth compliance monitoring and tobacco and drug prevention and education programs.

GOVERNMENT OF GUAM

Nonmajor Component Units
September 30, 2004

Component units are legally separate organizations for which the elected officials of GovGuam are financially accountable. Nonmajor component units are defined as those component units whose activities are not significant or material to that of the primary government or to all component units as a whole. Proprietary funds are used to account for a government's ongoing organizations and activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business and quasi - business activities - where net income and capital maintenance are measured - are accounted for through proprietary funds. The generally accepted accounting principles here are generally those applicable to similar businesses in the private sector: the measurement focus is on determination of the change in net assets, financial position and cash flows. A brief discussion of GovGuam's nonmajor component units as of September 30, 2004, follows:

Guam Community College (GCC) - GCC was created by the enactment of Public Law 14-77, "The Community College Act of 1977," which became effective on November 11, 1977. Administration and operation of GCC is under the control of a nine-member Board of Trustees appointed by the Governor of Guam with the advice and consent of the Guam Legislature. Two of the nine members have no voting and participation rights as they represent the faculty and staff union.

Guam Housing and Urban Renewal Authority (GHURA) - GHURA was created by Government Code, Vol. II, Title XIV, Chapter X, 13902. GHURA's purpose is to promote the health, safety and welfare of the people of Guam by eliminating slum and blight conditions, by the orderly redevelopment and renewal of communities, by proper planning of community development and by provision of safe, decent and sanitary dwellings for low-income families, through all available Federal and local governmental programs. The Board of Commissioners of GHURA are appointed by the Governor of Guam with the advice and consent of the Guam Legislature. Revenues are derived from Federal financial assistance and rentals or charges for dwelling accommodations.

Guam Housing Corporation (GHC) - GHC was organized under the authority of Public Law 8-80 to promote the general welfare of GovGuam by encouraging investment in and development of low-cost housing. GHC provides for its operating needs by charging points on its low cost loans. Interest rates are determined by its Board of Directors.

Port Authority of Guam (PAG) - PAG was created in 1975 as a public corporation under Public Law 13-87. PAG is entrusted with providing for the needs of ocean commerce, shipping and navigation and derives its operating revenues from a tariff establishing fees for wharfage and use of its facilities.

Guam Economic Development and Commerce Authority (GEDCA) - GEDCA was created to assist in the implementation of an integrated program for the economic development of Guam. Enabling legislation set forth several specific purposes for the establishment of GEDCA to include:

- a) Aiding private enterprise without competing with it;
- b) Expansion of the money supply to finance housing facilities; and
- c) Providing the means necessary for acquisition of hospital facilities.

To accomplish the stated purposes, GEDCA is authorized to conduct research, invest in, provide loans, operate and provide technical assistance to industries and/or agricultural projects; issue revenue bonds; obtain GovGuam land; purchase mortgages; and recommend to the Governor of Guam businesses qualifying for tax rebates and abatements. GEDCA utilizes various Trust Funds to accomplish its stated purposes.

GOVERNMENT OF GUAM

Nonmajor Component Units, Continued September 30, 2004

Guam Visitors Bureau (GVB) - GVB is a public corporation created for the purpose of promoting the visitor industry in Guam. Funding is provided from transfers of appropriations from the Tourist Attraction Fund and interest income.

Guam Educational Telecommunications Corporation (GETC) - GETC, also known as KGTF-TV, was created as a public corporation by Public Law 12-194, as approved on January 2, 1975. The law sets forth the purpose of the Corporation to present educational television to the people of Guam and involve the people of Guam in its activities to the maximum extent possible. Funding is primarily derived from appropriations from the General Fund, community service grants and contributions from the public.

Fiduciary Funds
September 30, 2004

Fiduciary funds are used to account for assets held by GovGuam in a fiduciary capacity. A brief description of each fund follows.

Pension Trust Fund

Government of Guam Retirement Fund - Public Law 1-88 and Public Law 9-251 (Section 4201 of the Government Code of Guam) created the Retirement Fund to provide retirement annuities and other benefits to employees of the Government who became aged or incapacitated or to dependents or survivors of these employees. The Retirement Fund is administered by a Board of Trustees who bear responsibility for the direction and operation of the affairs and business of the retirement system.

Private Purpose Trust Funds

Superior Court Trust Funds - The Superior Court is responsible for maintaining five trust funds which were primarily created through judicial decree. These Trusts are:

- Land Condemnation Fund - an escrow account for governmental land acquisitions.
- Guardianship Fund - to account for the financial affairs of individuals for whom the Court has been petitioned to act as a guardian.
- Trust Fund - to account for judgments compelling individuals to award payments arising from various civil and criminal cases.
- Traffic Court - to account for deposits made by accused traffic offenders who are contesting charges against them.
- Jury Fund - to account for funds awarded and to be awarded to citizens who serve on juries. Funding is derived from local appropriations.

Supreme Court Trust Fund - This fund was created to hold the assets in conjunction with an embezzlement judgment brought against a local attorney and to pay valid claims in accordance with any rulings.

Agency Fund

Agency funds are normally used to account for assets held by a government as an agent for individuals, private organizations or other governments and/or other funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Ms. Lourdes Perez
Director
Department of Administration
Government of Guam
Post Office Box 884
Hagatna, Guam 96910

Dear Ms. Perez:

In planning and performing our audit of the general purpose financial statements of the Government of Guam (GovGuam) for the year ended September 30, 2004, on which we have issued our report dated July 11, 2005, which report was qualified due to our inability to audit tax-related balances and due to the lack of audited financial statements of the Guam Memorial Hospital Authority and the Guam Visitors' Bureau – Component Units, we developed the following recommendations concerning certain matters related to GovGuam's internal control and certain observations and recommendations on other accounting, administrative and operating matters. Our principal recommendations are summarized below:

Finding-No. 1 – Capital Projects Fund

Criteria: Funds should be periodically evaluated for proper presentation and fund validity.

Condition: The "PUAG CIP Fund" appears to have had no activity for five or more fiscal years.

Cause: There appears to be weak internal controls over maintaining and updating fund validity.

Effect: This condition may result in a potential misstatement of account balances.

Prior Year Status: This condition is reiterative of prior year findings.

Recommendation: The auditee should strengthen internal controls over maintaining and updating fund validity.

Auditee Response and Corrective Action Plan: The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

Finding No. 1 – Capital Projects Fund, Continued

Auditee Response and Corrective Action Plan, Continued:

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Finding No. 2 – Travel

Criteria:

1. The Division of Accounts should consider whether three price quotations should be obtained before awarding a contract for travel. In the event this criterion is not met, a justification memo should be considered.
2. Travelers must submit travel liquidation documents within fifteen days of return.

Condition 1: In seven of twenty-five samples tested, insufficient price quotations may have been obtained. Additionally, the first five listed below did not contain a justification memo.

Finding No. 2 – Travel, Continued

Cause: The Division of Accounts should reexamine its travel procedures. The potential for acquiring more expensive travel fares than otherwise would result may be due to the amount of lapsed time from release of travel authorization from the Bureau of Budget and Management Resources to the receipt of travel approval by the Department of Administration.

Effect: There is no known effect on the financial statements; however, noncompliance with travel regulations may occur.

Prior Year Status: The above conditions are reiterative of conditions identified in the prior year.

Recommendation: Strengthen internal control to ensure that sufficient documents are obtained in a timely manner and that documents reflect accurate information. We recommend that justification memos include the preparer's identity and position status as well as the supervisor's approval or acknowledgement.

Auditee Response and Corrective Action Plan:

Criteria 1: Three price quotes:

The three price quote rule has been administered because travel authorizations are considered "small purchases" and must follow small purchase procurement policies. Because of the auditors interpretation the focus on resolving this issue had been on finding ways to consistently have three price quotes per travel request.

DOA has maintained that travel authorizations differ from other small purchases in that there are too many uncontrollable variables to consistently provide three price quotes for every TA. On June 2004, DOA and the auditors agreed the government's current financial situation and "temporary suspensions" from participating travel agencies made it difficult to adhere to the three price quote rule 100% of the time. The justification memo was implemented in June 2004 to document the reasons why three price quotes were not obtained for a particular TA and to help prove that effort was made to obtain the price quotes or there was not enough time to complete the task.

DOA acknowledges the findings of the auditors. In addition to the justification memo DOA has asked BBMR to reject TAs that lack three price quotes.

Criteria 2: Travel Liquidations/Advance

DOA concurs with the findings of the auditor. We are waiting for the response from the Attorney General's Office on the legality of withholding payroll checks. Approval from the AG's office will allow DOA to aggressively implement policies to reduce outstanding travel advances and other receivables such as bounced checks and used tax and so on. A follow up memo dated May 5, 2005 has been sent to the AG's office regarding this matter. Additionally, DOA is currently working with BBMR to implement additional policies to address current travel findings.

1. BBMR will reject all travel authorizations that have insufficient price quotes. All travel requests will be sent back to requesting agency.
2. BBMR will not approve travel authorizations for any traveler who has more than 1 outstanding travel records with the government.

Finding No. 2 – Travel, Continued

Auditee Response and Corrective Action Plan, Continued:

BBMR and the DOA will send a circular to all government agencies and departments informing them of these policies.

DOA has sent Department of Administration Circular No. 05-018 to all department heads. Attached to this circular is a listing of outstanding travel authorizations per department.

Finding No. 3 – General Fund – Other Revenues

Criteria: Complete documentation should be maintained in support of general ledger transactions and balances.

Condition: A write-off of \$776,896 was charged to GL110026142-Unidentified Tax Collection Account with no corresponding support on file. This adjustment related to bank account balances no longer in existence dating as far back as Fiscal Year 2000. Audit adjustments were proposed to correctly record the related general ledger balances.

Cause: Certain rollover transactions resulting from the ORACLE conversion to AS400 in FY2002 have remained in the general ledger. These transactions were computer generated and were unsupported.

Effect: Misstatements of related accounts could result from this condition.

Recommendation: Journal entries should be properly supported and reviewed to ensure appropriate general ledger accounts are charged.

Auditee Response and Corrective Action Plan: Documentation substantiating these findings was retrieved and is pending audit review.

Finding No. 4 - Overtime

Criteria: Hours worked should be processed on a timely manner to reflect proper cut-off and to ensure the completeness of recorded liabilities.

Condition: Twenty-five high value overtime amounts were judgmentally selected from the payroll registers. It was noted that all relate to employees under the Department of Corrections for hours worked between fiscal years 2001 and 2003. It was further noted that of the 25 samples tested, 8 samples indicated excessive overtime hours claimed ranging between 80 to 131.5 hours per pay period.

There does not appear to be a policy regarding the timely submission of overtime payment requests. Overtime requests from prior fiscal years are held by department heads until such time that funding is available, causing payroll liabilities to remain unrecorded.

Cause: Due to lack of funding during the fiscal year in which the overtime hours were worked, payment of overtime was held pending availability of funding.

Effect: The effect of this condition is a potential understatement of liabilities.

Finding No. 4 – Overtime, Continued

Recommendation: Requests for supported overtime payments should be submitted the following pay period to ensure recording and processing in a timely manner. This policy should be circulated to all departments to ensure that hours worked are processed in the correct period.

Auditee Response and Corrective Action Plan: A departmental memo has been circulated to all line agencies requesting submission of pertinent documents in support of any pending overtime payments for periods covering Fiscal Years 2004 and prior. We will follow up with reminders to ensure compliance.

Finding No. 5 – Accounts Receivable – Special Revenue

Criteria: A detailed aging report of accounts receivable should be maintained and updated to reflect account validity.

Condition:

For the following accounts, the accounts receivable balance has not changed since the prior year.

<u>Fund</u>	<u>Fund Name</u>	<u>Balance</u>
104	Exxon Overcharge	\$ 78,969
210	Land for the Landless	125,720
237	Government Housing Revolving	99
269	Public Service Recovery	12,445

Cause: There appears to be weak internal controls over ensuring detailed aging reports of accounts receivable are maintained and updated to reflect account validity.

Effect: The condition may result in a potential misstatement of accounts receivable balances.

Prior Year Status: This condition is reiterative of a prior year finding.

Recommendation: The auditee should strengthen internal controls to ensure detailed aging reports of accounts receivable are maintained and updated to reflect account validity.

Auditee Response and Corrective Action Plan: The DOA generally agrees with the cited condition.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Finding No. 6 – Travel Advance (All Funds)

Criteria:

1. Travel advances should be cleared in a timely manner. The provisions of the Travel and Transportation Manual Section 1712.02 Recovery of Advances, require that the Director of Administration (DOA) or his/her designee shall assure liquidation of traveler's advances by filing travel vouchers within fifteen (15) days upon return from travel as prescribed in Section 1715 Travel Voucher.
2. The provisions of the GovGuam Travel and Transportation Manual, Section 1712.02c require that the Director of Administration shall initiate recovery of advances by DOA collection policies and procedures by set off of salary due, retirement credit, or otherwise, from any amount due to the Government of Guam or by such other legal method of recovery as may be necessary.

Condition: As of September 30, 2004, \$1,066,083 was advanced relating to travel for training, health care, or legal matters. Of this amount, \$1,008,525 relates to previous fiscal years summarized as follows:

Department	No. of Advances	Amount Outstanding
PHSS	123	\$ 295,477

An audit adjustment was proposed to record an allowance for uncollectible advances and reduce travel advances to their net realizable value.

Cause: The Government of Guam appears to have weak enforcement of travel clearance policies and collection policies for outstanding receivables.

Finding No. 6 – Travel Advance (All Funds), Continued

Effect: Receivable balances may be misstated, and cash flows of the Government of Guam may be negatively impacted.

Prior Year Status: The above condition is reiterative of conditions identified in the prior year audit of the Government of Guam.

Recommendation: The Government of Guam should enforce collection policies and stabilize the responsibilities of reconciliation and collections to ensure prompt receipt of overdue amounts. A mechanism to inform the various agencies should be in place to ensure that uncleared accounts are properly communicated.

Auditee Response and Corrective Action Plan: DOA acknowledges the findings of the auditor and is currently working on implementing new policies to help encourage travelers to clear within the 15 day grace period. DOA would like to report that outstanding travel advances per fiscal year has been reduced from 90% to 46% from FY02 to FY03 and down to 9% in FY04. DOA anticipates further reduction in outstanding travel clearances for FY05.

We are waiting for the response from the Attorney General's Office on the legality of withholding payroll checks. Approval from the AG's office will allow DOA to aggressively implement policies to reduce outstanding travel advances and other receivables such as bounced checks and used tax and so on. A follow up memo dated May 5, 2005 has been sent to the AG's office regarding this matter. Additionally, DOA is currently working with BBMR to implement additional policies to address current travel findings.

1. BBMR will reject all travel authorizations that have insufficient price quotes. All travel requests will be sent back to requesting agency.
2. BBMR will not approve any traveler who has more than 1 outstanding travel records with the government.

BBMR and the DOA will send a circular to all government agencies and departments informing them of these policies. DOA has sent Department of Administration Circular No. 05-018 to all department heads. Attached to this circular is a listing of outstanding travel authorizations per department.

Finding No. 7 – General Fund – Imprest Fund

Criteria: Imprest fund reconciliations are to be prepared on a regular basis.

Condition: At the end of fiscal year 2004, the Treasurer of Guam received remaining portions of petty cash from each department and distributed new checks for the total annual petty cash amount without reconciling the funds.

Cause: Preparation of imprest fund reconciliations were not properly monitored.

Effect: There appears to be weak controls over the accountability of imprest funds. Proposed adjustments were deemed unnecessary due to the immateriality of the potential effect on the financial statements.

Recommendation: ~~We recommend that imprest fund reconciliations occur at least annually, preferably at fiscal year end.~~

Auditee Response and Corrective Action Plan: The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Finding No. 8 - Cash

Criteria: Financial statements and bank reconciliations should be prepared on a regular basis.

Condition: The Supreme Court does not prepare financial statements and bank reconciliations.

Cause: There appears to be weak internal controls over ensuring financial statements and bank reconciliations are prepared on a timely basis.

Effect: This condition may result in potential misstatements of the financial statements.

Prior Year Status: The condition is reiterative of prior year audit findings.

Recommendation: The auditee should strengthen internal controls to ensure financial statements and bank reconciliations are prepared on a timely basis.

Finding No. 8 – Cash, Continued

Auditee Response and Corrective Action Plan: The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

Finding No. 9 – Use Tax Receivable

Criteria:

1. The subsidiary ledger should support the general ledger balance.
2. Accounts receivable should be monitored for collectibility.

Conditions:

1. The use tax subsidiary ledger balance is \$480,000 greater than the general ledger balance.
2. Eight of eight receivables tested were carryover balances from as far back as 1998. Overall, the use tax receivable account appears to be uncollectible. An audit adjustment was proposed to record an allowance for uncollectible accounts to reduce use taxes receivable to their net realizable value.

Cause: No monitoring activity appears to be present to ensure collectibility of these balances.

Effect: This condition results in a potential misstatement of recorded receivables. In addition, the realizable value of the receivables may be overstated by the amount of account balances unlikely to be collected.

Recommendation: We recommend that a more thorough analysis of the Use Tax receivable account occur to ensure that only valid accounts are carried over.

Auditee Response and Corrective Action Plan: DOA concurs with the findings of the auditor. We are currently analyzing the Use Tax Receivable account to insure that only valid accounts are carried over. Revenue and Tax is currently working with our office to identify businesses that are no longer active in their system.

Finding No. 10 – General Computer Controls

Criteria: General computer controls should focus on management's control of daily functions.

Condition: The following controls are currently not present or are functioning incorrectly:

- Development and Testing of a Disaster Recovery Plan
- Formal Training of IT Staff
- Backup and Retention Policy
- Physical Access to Computer Operations Room
- Anti-Virus Software Policy
- Software and Internet Policy
- Application Change-Control Policy
- Management Review of Application Test Data
- User Request for Application & Database Structure Change Documentation
- Testing of Changes to Application & Database Structure
- Network Systems Performance Management

Cause: There does not appear to be adequate monitoring of the IT function listed above.

Effect: There is a potential for extended system down time and potential system failure due to the lack of written restoration procedures. In addition, the risk of potential fraud is present when system change controls do not exist or are not adequately followed.

Recommendation: We recommend development and implementation of each of the risk controls listed above.

Auditee Response and Corrective Action Plan: The Department of Administration has recently developed and adopted an Enterprise Architecture and Information Technology Strategic Plan, under the guidance of the USDA Graduate School PITI (Pacific Islands Training Initiative) through a US Department of the Interior technical assistant grant. Among the issues addressed in this plan are:

- Disaster Recovery
- IT Staff Training
- Backup and Retention Policy
- Software and Internet Policy
- Application Change Control
- Test Data review
- Application and Database change documentation
- Testing Procedures
- Network management

This Enterprise Architecture and Information Technology Strategic Plan is within DOA's Financial Management Improvement Plan, also under the guidance of and support of USDA-PITI and the Department of the Interior. Policies and procedures are being developed and implemented according to Change Control and Project Management techniques.

With assistance from the Guam Office of Homeland Security, the following are being addressed:

- Anti-Virus and Cyber Security
- Physical Access to the Data Center

Finding No. 11 – AS/400 Parameter Settings

Criteria: AS/400 Parameter Settings controls should focus on the system's control of daily functions.

Condition: The following controls are currently not present or are functioning incorrectly:

- System Value Settings
 - Redundant User Profiles
 - IBM Supplied User Profiles
 - Assignment of Users to Appropriate User Classes and Special Authorities
 - Access to Production
 - Menu Security
 - AS/400 Audit & History Log Settings
 - Public Object Authority Assignment
 - Access to Sensitive System Commands
 - Public Access to Production Libraries
-

Cause: There does not appear to be a monitoring activity designed to ensure proper settings and procedures of AS/400 parameter settings as listed above.

Effect: There is a potential system integrity failure due to unauthorized access and unauthorized system changes.

Recommendation: We recommend the development and implementation of each of the risk controls listed above.

Auditee Response and Corrective Action Plan: With DOA's Financial Management Improvement Plan (FMIP), which is also under the guidance of and support of USDA-PITI and the Department of the Interior, policies and procedures are being developed and implemented relative to Change Control and Project Management.

With assistance from the Guam Office of Homeland Security, the following will be addressed:

- Anti-Virus and Cyber Security
- Physical Access to the Data Center

This particular audit finding is being reviewed thoroughly for compliance with the Auditor's recommendations. Upon review, appropriate changes to the Parameter Settings will be made to prevent or mitigate risks.

Finding No. 12 – Encumbrances, Continued

Cause: Long outstanding encumbrances remain open with no review as to their validity.

Effect: An overstatement of encumbrances may result from this condition.

Recommendation:

1. Accounting procedures should include adjustments of invalid encumbrances.
2. Accounting procedures should include review of outstanding encumbrances older than a year to verify their validity.
3. The encumbrances should be reviewed to ensure their validity.

Auditee Response and Corrective Plan: DOA agreed that the above amounts under Conditions 1 and 2 should be unencumbered. DOA adjusted the ledger as of June 16, 2005 to reflect such cancellations.

Condition #1:

Enc No.

E041754001-- \$105,785.86 was cancelled due to FY04 services have been fully paid to GPA.
P046A04710 -- \$41,876.76 de-enc due to acct had expired 09/30/04.

Condition #2: P026X00191 \$53,915.78 de-enc due to no activity since FY03

Condition #3: 100% of outstanding Purchase Orders FY01-FY03 have been liquidated. FY04 obligations have been liquidated as of Aug 2004 transaction date. I am still in the process of liquidating all (locally funded & local matching) FY04 POs. 100% Federally funded encumbrances possessing expenditure end date 09/30/05 will remain open to that period only.

Finding No. 13 - Appropriation

Criteria: Annual local match appropriations (B type appropriations) should not carryover to the subsequent year, unless the corresponding grant is extended or an encumbrance is recorded before the end of the fiscal year. For accounts with encumbrances, appropriations carried over should only be the corresponding local share.

Condition: Amounts carried over in the local annual match appropriation do not correspond to the amount carried over in the federal grant account. The amount of the local match carryforward should not exceed 50% of the federal program encumbrances that are carried forward. Of 32 continuing appropriations tested, eight samples represented "B" type appropriations. Of the eight samples, we noted this condition existed in the six samples summarized in the table below.

Account	Per GPFS	FY05 AS400	Per Audit	Difference
5100B041729MT950290	\$1,522,545	\$1,522,545	\$355,708	\$1,166,838

Page 14

Finding No. 13 – Appropriation, Continued

Cause: The lapse and obligation date of the local match account do not coincide with the dates used in the federal grant account. The lapse and obligation date in the local match account were used to determine the applicable appropriation carried forward. For the above items, the date for local match was "12/31/04"; however, for the federal account, it was "9/30/04." We determined that the federal account date was the accurate date.

Effect: This scenario resulted in a misstatement of continuing appropriations. Furthermore, carrying forward appropriations in excess of the amount encumbered could result in improper expenses in the subsequent period.

Recommendation: Dates used for both federal and local account should be the same as authorized by the grant and be duly approved by the authorized departments to ensure the proper carryover of appropriations.

We understand that expenses charged to local accounts are directly linked to the federal grant accounts, which is system generated. However, a manual journal entry can still be made and be charged to the local account. Although it is a policy of GovGuam to prohibit charging directly to the local account, errors could be made. Hence, as a preventive control, the amount to be carried forward should correspond only to the amount carried forward in the federal grant account. With this in place, less time would be spent monitoring improper JV's made to the local account. Erroneous charges can be easily identified as the ending fund balance at the end of the year would be negative as a result of improper charging.

Auditee Response and Corrective Action Plan: The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Finding No. 14 – Bond Covenant Compliance

Criteria: Bond covenants for the LOB Series 2001 requires that the Government must "furnish financial statements to each major national investment rating service which initially rated any Series of Bonds, and to each Bondholder...within six months after the close of each fiscal year..."

Condition: The Government of Guam has not yet furnished their bond rating agency with the latest copy of their financial statements, audited or otherwise, prepared in accordance with GAAP.

Ms. Lourdes Perez
Director
Department of Administration
Government of Guam
July 11, 2005

Page 15

Finding No. 14 – Bond Covenant Compliance, Continued

Cause: There appears to be weak internal controls over ensuring that financial statements are prepared and furnished the bond rating agencies.

Effect: The Government may be in violation of bond covenant requirements.

Prior Year Status: This condition is reiterative of a prior year finding.

Recommendation: The Government should strengthen internal controls to ensure financial statements are prepared and provided the responsible investment rating services.

Auditee Response and Corrective Action Plan: The DOA agrees with this finding. The DOA, in the past has always been providing audited financial statements that were completed after the six months window of submitting financial statements. The DOA, in the future will submit an un-audited financial statements in lieu of an audited version to comply with the bond covenant with the stipulation that the audited financial statements will also be submitted upon completion and availability.

Finding No. 15 - Appropriation

Criteria: Annual local match appropriations (B type appropriations), should not carryover in the subsequent year, unless the corresponding grant is extended or an encumbrance was made before the end of the year. For accounts with encumbrances, corresponding appropriations should be carried over.

Condition: GovGuam did not carryover the appropriation for the encumbrance of the local share for account "5100B031730MT963290 – Support Services MT Account" amounting to \$890,834. This grant is overmatched and as the federal share was already exhausted, all encumbrances should be charged to the local account. As of end of fiscal year 2003, there was still an available balance in this account which lapsed, were allowed to carryover and was applied to another expenditure account in fiscal year 2004, as authorized by public law.

Cause: GovGuam failed to carryover the appropriation.

Effect: This condition resulted in a negative account balance, making the expenditure unfunded as the appropriation was redirected to another expense account in fiscal year 2004. In addition, this also resulted in an overstatement of the amount carried over in FY04 as lapses from FY03.

Recommendation: The Government of Guam should review and monitor the appropriation for encumbrances to ensure such are appropriately funded. As all the encumbrances for federal grants are only recorded in the Fund 101, the corresponding Fund 101 account should also be revisited at the end of the fiscal year, to ensure agreement in both local and federal accounts.

Auditee Response and Corrective Action Plan: As a corrective action, all 5100 local matching accounts, especially the overmatch accounts, will be given an expenditure end date, lapse date, and obligation end date similar to the expenditure end date of the 5101 federal accounts, which means the 90 days liquidation period is included. This will then prompt the AS400 system to carry over the available balances of the local accounts to the next fiscal year thus eliminating the negative balances of the account.

Department of Administration
Government of Guam
July 11, 2005

Page 16

Finding No. 16 - Appropriation

Criteria: All expenditures with object codes other than Z and X codes, should have a corresponding appropriation sufficient to cover related expenses.

Condition: GovGuam did not load the appropriation for the account "5100C960201CH001111 - CHI - APPROP RECEIPTS." The appropriation in this account is based on revenue generated by "The Chamorro Heritage Institute". The agency deposited its collections from sales of books and other items to a DOA account; however, the receipt was posted as unidentified collections, and therefore, loading of the appropriation was deferred. In fiscal year 2005, the amount represented as being carried forward as a continuing appropriation was the total of the receipts, less the negative account balance. However, as of report date, it appears that the receipt is not yet identified as no appropriation was loaded in the account.

Cause: ~~The untimely identification of the receipt resulted in the untimely loading of the appropriation.~~

Effect: This condition resulted in a negative balance in the account, making the expenditure unfunded.

Recommendation: All receipts should be timely identified and be posted appropriately to ensure that corresponding expenditures are properly funded.

Auditee Response and Corrective Action Plan: The DOA generally agrees with the cited condition.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. ~~The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency.~~ The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Cause: There appears to be weak internal controls over ensuring proper documentation of expenses.

Effect: This condition may result in potential misstatements of Special Revenue Fund expenses.

Prior Year Status: The condition is reiterative of prior year findings.

Recommendation: The auditee should strengthen internal controls to ensure proper documentation of expenses and the supporting documents should be made available for review.

Auditee Response and Corrective Action Plan: Documentation substantiating these findings were retrieved and are pending audit review.

Finding No. 18 – Appropriation – Accounts with Negative Balances

Criteria: Certain federal grants require exhaustion of the local share first in the initial grant year. The federal share would be utilized in the subsequent year. In the subsequent year, no expenditure should be charged to the local share unless a grant over expenditure occurs.

Condition: Account 5100G032640MT950290 – Basic Support Local Match, is the matching account of a 2-year federal grant (Basic Support), which meets the above criteria. Fiscal year 2004 is the second year of the grant. Therefore, no expenditure should have been charged to the local account as it was already exhausted in fiscal 2003. However, in fiscal year 2004, expenses were still allocated to the local matching account despite the fact that the corresponding federal grant account was not yet fully utilized.

Cause: There was one object code in the federal account that was not updated in the current year and therefore expenses were automatically allocated to the local account.

Effect: The automatic allocation of the expense from the federal account resulted in a negative account balance.

Recommendation: We recommend that a review be performed on this type of account. In addition, negative balances should be periodically monitored and investigated to detect errors at the earliest moment.

Finding No. 18 – Appropriation – Accounts with Negative Balances, Continued

Auditee Response and Corrective Action Plan: As a corrective action, after the last day authorized by the federal grant to pay a vendor, the grantee will send a memo to DOA requesting that all outstanding encumbrances be liquidated. Then the grantee will send an allotment modification to the Bureau of Budget and Management requesting to remove all existing available funds from the expired grant. All expenses incurred thereafter will go to the unposted section of the AS400. Review will then be done periodically to ensure if the charges are allowable. If so, the grantee will then have to do the modifications necessary for the charges to be posted on the account.

Finding No. 19 – Solid Waste – Accounts Receivable

Criteria: Payments should be applied to individual invoices to reflect correct aging of customer accounts.

Condition: Payments received are not being matched against related invoices. This makes it virtually impossible to create an accurate aging of accounts receivable.

Cause: There is no system in place to apply payments to applicable invoices.

Effect: No accurate aging of accounts receivable was created, which would provide an indication of the collectability of the accounts.

Recommendation: A system should be implemented to ensure proper invoicing and application of payments against related invoices.

Auditee Response and Corrective Action Plan: DOA concurs with the findings of the auditor. Our office is actively working with DPW and is planning to re-enforce the billing and collection areas of Tipping fees for both the commercial and residential consumers. Additionally, the public laws are closely being examined to insure that the government has the legal authority to establish and enforce new policies and procedures and outline the responsibilities of the participating vendors.

Finding No. 20 – Supporting Documentation

Criteria: All revenue should be supported by documents substantiating the transaction. Furthermore, supporting documents should be made available for review.

Condition: For the transactions listed below, the supporting information/documents were not provided for review.

Auditee Response and Corrective Action Plan: The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comfort level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND COMPLIANCE AND OTHER MATTERS BASED UPON THE AUDIT
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Felix P. Camacho
Governor
Government of Guam:

We have audited the basic financial statements of the Government of Guam as of and for the year ended September 30, 2004, and have issued our report thereon dated July 11, 2005, which report was qualified due to our inability to audit tax-related balances and to the lack of audited financial statements of the Guam Memorial Hospital Authority and the Guam Visitors' Bureau – Component Units. Except as discussed in the preceding sentence, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Government of Guam's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Government of Guam's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 04-24 through 04-30.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider finding numbers 04-24, 04-28, 04-29, and 04-30 to be material weaknesses.

We also noted other matters involving the internal control over financial reporting, which we have reported to management of the Government of Guam in a separate letter dated July 11, 2005.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Government of Guam's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards*, which are described in the accompanying Schedule of Findings and Questioned Costs (pages 30 through 80) as finding numbers 04-01, 04-02, 04-03, 04-04, 04-10, 04-14, and 04-17 through 04-24.

We also noted certain immaterial instances of noncompliance that we have reported to management of the Government of Guam in a separate letter dated July 11, 2005.

This report is intended solely for the information and use of the management of the Government of Guam, the Office of the Public Auditor of Guam, federal awarding agencies, pass-through entities and the cognizant audit and other federal agencies and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND INTERNAL CONTROL
OVER COMPLIANCE APPLICABLE TO EACH MAJOR FEDERAL AWARD PROGRAM
AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Honorable Felix P. Camacho
Governor
Government of Guam:

Compliance

We have audited the compliance of the Government of Guam with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2004. The Government of Guam's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs (pages 29 through 80). Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Government of Guam's management. Our responsibility is to express an opinion on the Government of Guam's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Government of Guam's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Government of Guam's compliance with those requirements.

As described in finding numbers 04-01, 04-03, 04-04, 04-06 through 04-17, and 04-21 through 04-24 in the accompanying Schedule of Findings and Questioned Costs, the Government of Guam did not comply with requirements regarding allowable costs/cost principles; cash management; eligibility; equipment and real property management; matching, level of effort, earmarking; procurement and suspension and debarment; and special tests and provisions that are applicable to its major federal programs described in the accompanying Schedule of Major Federal Award Programs (page 28). Compliance with such requirements is necessary, in our opinion, for the Government of Guam to comply with requirements applicable to those programs.

In our opinion, except for the noncompliance described in the preceding paragraph, the Government of Guam complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2004.

Internal Control Over Compliance

The management of the Government of Guam is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Government of Guam's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the Government of Guam's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 04-01 through 04-25.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider finding numbers 04-03, 04-04, 04-14, 04-19, 04-20, 04-22, 04-23, and 04-24 to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the Government of Guam as of and for the year ended September 30, 2004, and have issued our report thereon dated July 11, 2005, which report was qualified due to our inability to audit tax-related balances and due to the lack of audited financial statements of the Guam Memorial Hospital Authority and the Guam Visitors' Bureau - Component Units. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards (pages 5 through 23) is presented for the purpose of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. This schedule is the responsibility of the management of the Government of Guam. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects when considered in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the management of the Government of Guam, the Office of the Public Auditor of Guam, federal awarding agencies, pass-through entities and the cognizant audit and other federal agencies and is not intended to be, and should not be, used by anyone other than these specified parties.

GOVERNMENT OF GUAM

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2004

1. Scope of Audit:

The Government of Guam is a governmental entity established by the 1950 Organic Act of Guam, as amended, and has the powers of a body corporate, as defined in the act and local statutes. All significant operations of the Government of Guam are included within the scope of the audit. The U.S. Department of Health and Human Services has been designated as the Government of Guam's cognizant agency for the Single Audit.

Programs Subject to Single Audit:

The Schedule of Expenditures of Federal Awards presents each Federal program related to the following agencies:

- Corporation for National and Community Service
- U.S. Department of Agriculture
- U.S. Department of Commerce
- U.S. Department of Defense
- U.S. Department of Education
- U.S. Department of Energy
- U.S. Department of Health and Human Services
- U.S. Department of Housing and Urban Development
- U.S. Department of the Interior
- U.S. Department of Justice
- U.S. Department of Labor
- U.S. Department of Transportation
- U.S. Environmental Protection Agency
- National Foundation on the Arts and the Humanities
- Social Security Administration
- U.S. Department of Homeland Security

2. Summary of Significant Accounting Policies:

a. Basis of Accounting:

For the purposes of this report, cash receipts relate to all cash derived from the federal agencies for programs within the Catalog of Federal Domestic Assistance. Also, cash receipts include adjustments from the Government of Guam. Cash receipts do not include receipts related to program income. The Government of Guam has not allocated interest income that may have been earned in part from cash received from federal programs. Indirect costs claimed by the Government of Guam from federal agencies are deducted from cash receipts and reimbursements.

All expenditures and capital outlays that represent the federal share are reported as expenditures. Expenditures are recognized on the modified accrual basis of accounting, consistent with the manner in which the Government of Guam maintains its accounting records. This includes earned reimbursements under different formula grants and entitlement programs that are accounted for as revenues in the General Fund of the Government of Guam and the dollar value of food stamp coupons issued during the period.

2. Summary of Significant Accounting Policies, Continued:

b. Subgrants:

Certain program funds are passed through the Government of Guam to subrecipient organizations. The Schedule of Expenditures of Federal Awards does not contain separate schedules disclosing how the subrecipient outside of the Government of Guam's control utilized the funds. Federal awards provided to subrecipients are treated as expenditures when paid to the subrecipient. The following is a summary of subrecipient organizations to which Federal funds in excess of \$500,000 are passed through:

Subrecipient Organization	CFDA Number	2004 Amount of Pass-through
Guam Power Authority	83.544	\$ <u>13,268,745</u>

GOVERNMENT OF GUAM

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2004

2. Summary of Significant Accounting Policies, Continued:

c. Cost Allocation:

The Government of Guam has a plan for allocation of common costs related to public health and social services federal awards programs. The amounts allocated to 2004 grant programs are based on 2004 actual expenditures and caseloads.

As of the date of this report, for FY 2004, there is no approved indirect cost negotiation agreement.

3. Reporting Entity:

The Government of Guam, for the purposes of the Schedule of Expenditures of Federal Awards, includes all the funds of the primary government as defined by GASB 14. It does not include the following component units of the Government of Guam:

- Government of Guam Retirement Fund
- Guam Community College
- Guam Economic Development and Commerce Authority
- Guam Educational Telecommunications Corporation
- Guam Housing and Urban Renewal Authority
- Guam Housing Corporation
- Guam International Airport Authority
- Guam Memorial Hospital Authority
- Guam Power Authority
- Guam Rental Corporation
- Guam Telephone Authority
- Guam Visitors Bureau
- Guam Waterworks Authority
- Port Authority of Guam
- University of Guam

These component units may receive federal awards. If awards are expended, these entities separately satisfy the audit requirements if applicable.

Also, for the purposes of the Schedule of Expenditures of Federal Awards, it does not include the Guam Department of Education, a component of the Government of Guam's General Fund, which separately satisfies the audit requirements.

The Government of Guam administers certain federal awards programs through subrecipients. Those subrecipients are also not considered part of the Government of Guam reporting entity.

YEAR ENDED SEPTEMBER 30, 2004

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs Year Ended September 30, 2004

Part I - Summary of Auditors' Results

1. The Independent Auditors' Report on the financial statements expressed a qualified opinion.
2. Reportable conditions in internal control over financial reporting were identified, some of which are considered to be material weaknesses.
3. Instances of noncompliance considered material to the financial statements were disclosed by the audit.
4. Reportable conditions in internal control over compliance with requirements applicable to major federal award programs were identified, some of which are considered to be material weaknesses.
5. The independent auditors' report on compliance with requirements applicable to major federal award programs expressed a qualified opinion.
6. The audit disclosed findings required to be reported by OMB Circular A-133.
7. The Government of Guam's major programs were as follows:

<u>Name of Federal Program or Cluster</u>	<u>CFDA Number</u>
Food Stamp Cluster:	
Food Stamps	10.551
State Administrative Matching Grants for Food Stamp Program	10.561
Special Supplemental Nutrition Program for Women, Infants, and Children	10.557

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-01
Federal Agency: U.S. Department of the Interior
CFDA No.: 15.875
Program Name: Economic, Social and Political Development of the Territories and the Freely Associated States.
Area: Procurement and Suspension and Debarment
Questioned Costs: \$28,512

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price. Furthermore, in accordance with the applicable local procurement law, the Guam General Services Agency shall procure from the United States when the cost is less by ten percent than from other contractors and such cost-savings analysis should be maintained on file.

Condition:

Of 22 transactions, aggregating \$6,805,567 of \$8,394,823 in total Program non-payroll expenditures, we noted the following conditions:

1. For 1 (or 4%), the sole source method was used; however, the written rationale for the selection of the vendor (equipment standardization and uniformity and previously purchased from vendor) appears insufficient for the following transaction:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>	<u>Grant Award #</u>
09/10/04	007866	W0023504	Fire	P046A01566	\$ 28,512	2003 CIPGUAM2003-1

2. For 2 (or 9%), goods were procured from a vendor with a Federal GSA contract; however, the required cost-savings analysis was not documented for the following transactions:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>	<u>Grant Award #</u>
06/17/04	0002952	G0097192	Administration	P046A02749	\$ 75,833	2003 TA#MCI-11
06/07/04	0002606	G0097192	Administration	P046A02850	\$ 82,530	2003 TA#MCI-11

Cause:

There appears to be a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. For Condition 1 above, a questioned cost of \$28,512 exists. For Condition 2 above, no cost is questioned as the procurement files contained evidence that open competition was made.

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-01, Continued
Federal Agency: U.S. Department of the Interior
CFDA No. 15.875
Program Name: Economic, Social and Political Development of the Territories and the Freely Associated States.
Area: Procurement and Suspension and Debarment
Questioned Costs: \$28,512

Recommendation:

The procurement officer should establish and implement internal control procedures to ensure that all procurements are documented in sufficient detail in compliance with applicable procurement requirements. The procurement officer should not approve purchase orders to procure goods/services from a particular vendor unless such procurement documents as solicitation ads, bid abstracts, or other written memoranda are documented on file to detail the significant history of the procurement.

Auditee Response and Corrective Action Plan:

Claudia S. Acfalle, Chief Procurement Officer, Guam General Services Agency, provided the following response:

[Condition 1]: [We] disagree with this finding. The approved sole source determination indicated that it was for "Items, equipment or materials are standard and uniform to the government." Attached is a justification letter dated December 22, 2003, submitted by the Fire Chief, requesting to procure rescue pumper equipment package through [Vendor # W0023504] for uniformity of the firefighting equipments of the Guam Fire Department.

[Condition 2]: [We] disagree with this finding. The method utilized in the procurement of computers on P046A02749 and P046A02850 was procuring through the 5GCA §5122 U.S. Government. The abstract in the procurement file indicated that the local vendors did not meet the required warranty as requested by the Department of Administration. The Chief Procurement Officer will ensure that the 10% preference is shown on the abstract of each procurement file utilizing the U.S. Contract source method.

GSA will continue to improve the processes and to uphold the integrity within the procurement activities of this government.

Auditors' Response:

[Condition 1]: We have reviewed the referenced sole source determination letter, dated December 22, 2003. Based on our review, there is no indication that contemporaneous solicitation procedures were performed during the procurement process to support the justification that the required equipment is exclusively sold by the vendor. Therefore, the finding remains.

[Condition 2]: No cost-savings analysis was documented. Therefore, the finding remains.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-02
Federal Agency: U.S. Department of Labor
CFDA No.: 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Period of Availability of Federal Funds
Questioned Costs: \$0

Criteria:

In accordance with applicable period of availability requirements, funds allotted to a State for any program year are available for expenditure by the State during that program year and the two succeeding program years.

Condition:

There were unexpended and un-obligated balances from grant years 2000 and 2001 whose periods of availability ended prior to October 1, 2004. The aggregated total of unexpended balances is \$266,481 as follows:

<u>Grant Year</u>	<u>End of Period of Availability</u>	<u>Unexpended Balance at 9/30/04</u>	<u>Grant Award #</u>
2000	2003	\$ 31,707	2000 AA-10600-0050
2001	2004	234,774	2001 AA112880150M1
		<u>\$ 266,481</u>	

Cause:

There appears to be weak internal control over ensuring that Federal Funds are deappropriated after the period of availability.

Effect:

Available balances for grant years 2000 and 2001 are overstated. If such balances are not properly deappropriated, the Government of Guam could potentially expend Federal Funds in noncompliance with applicable period of availability requirements. No questioned cost is presented at this finding as expenditures in FY 2004 have been charged to grants within the fund's period of availability.

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

Recommendation:

The Government of Guam should strengthen internal controls to ensure that Federal funds are no longer available for obligation or expenditure after the fund's period of availability. When the fund's period of availability ends, the responsible personnel should deappropriate unexpended balances.

Auditee Response and Corrective Action Plan:

Maria S. Connelley, Director of Labor, Guam Department of Labor, provided the following response:

Auditee Response:

The agency at the end of FY2004 has yet to close out PY2000 and PY2001 grants as reconciliation with these accounts were still being conducted. Outlays for services that were provided during the grant period were not paid due to lack of invoices and proper invoice processing. As part of our efforts since February 2005, we have been reviewing the accounts to ensure that all payments for services rendered are made to all vendors before closing out these grants.

Corrective Action Plan:

The agency has begun to strengthen their internal controls by implementing in-house tracking mechanisms for each funding stream (or grant award) to ensure that by the end of each grant period all transactions have been liquidated and de-obligated accordingly. The agency will continue to collaborate with the Department of Administration and the Bureau of Budget and Management Research to make certain that we meet our federal requirements.

Auditee Response and Corrective Action Plan, Continued:

The agency requested technical assistance from the Department of Administration to provide training to their fiscal staff on current DOA policies and procedures in processing payments, training was conducted on April 29, 2005.

The agency will send a memorandum to DOA requesting all outstanding encumbrances be liquidated after the last day authorized by the federal Grant to pay a vendor. The grantee will send an allotment modification to the Bureau of Budget and Mgmt requesting to remove all existing available funds from the expired grant.

CFDA No.: 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Procurement and Suspension and Debarment
Questioned Costs: \$289,027

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Condition:

Of 7 transactions, aggregating \$290,776 of \$1,091,181 in total Program non-payroll expenditures, we noted the following conditions:

1. For 4 (or 57%), there is no significant history of the procurement on file for the following transactions:

	<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>	<u>Grant Award #</u>
a.	05/04/04	0000103	P0096101	AHRD	C040600720	\$ 15,000	2002 AA-12047-0250

						<u>\$231,008</u>	

2. For 2 (or 29%), the Chief Procurement Officer determined the lease of space from the vendor to be an unauthorized procurement, as the lease agreement had expired, for the following transactions:

	<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>	<u>Grant Award #</u>
	04/14/04	108928	P4676701	AHRD	P046A02963	\$ 49,740	2002 AA-12047-0250

						<u>\$58,019</u>	

Cause:

There is a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. A questioned cost of \$289,027 exists.

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-03, Continued
Federal Agency: U.S. Department of Labor
CFDA No.: 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Procurement and Suspension and Debarment
Questioned Costs: \$289,027

Recommendation:

The procurement officer should establish and implement internal control procedures to ensure that all procurements are documented in sufficient detail in compliance with applicable procurement requirements. The procurement officer should not approve purchase orders to procure goods/services from a particular vendor unless such procurement documents as solicitation ads, bid abstracts, or other written memoranda are documented on file to detail the significant history of the procurement.

Auditee Response and Corrective Action Plan:

Maria S. Connelley, Director of Labor, Guam Department of Labor, provided the following response:

Auditee Response:

1. The Guam Workforce Investment Board, through its authority by statute, approved service providers Guam Community College Vendor#G1381601 and the Pacific Human Resources, Vendor#P0096101 to provide educational and vocational training to WIA participants. A copy of the contract and board minutes is hereby attached for your reference and review.

WIA PL-105-220 Chapter 3 Section 122 and 20 CFR 663.505 provides the governance for certifying an eligible training provider. The Guam Community College is considered "exempt" from the initial certification process as a Post Secondary Education receiving funds under Title IV of the Higher Education Act of 1965. This certification process and exempt status for Post Secondary Institutions allows the Agency to engage in non-competitive awards to Guam Community College pursuant to WIA PL105-220, Chapter 3, Section 122 and 20 CFR 663.505.

WIA PL-105-220 Chapter 3 Section 122 and 20 CFR 663.505 provide the governance for certifying an eligible training provider. The initial certification for new training providers who are not considered "exempt" is established by the Guam Workforce Investment Board. Upon certification of training providers, a Memorandum of Agreement is developed and routed through legal review with the Guam Attorney General's Office.

2. The Agency for Human Resources Development's occupancy of the Sunny Plaza in Tamuning was under the Department of Labor (DOL) Lease Agreement with Sunny Development Corporation at a cost-sharing arrangement to July 31, 2003. Under DOL and AHRD plans in 2002, AHRD was to relocate along with the One-Stop Career Center to DOL's new facility at the Hakobutan Building in Tamuning. This plan, however, was postponed due to the technical issue on DOL's new lease with CALS Corporation. DOL and AHRD's best and only option was to appeal to GSA for a month-to-month lease with Sunny Development Corporation and avoid the additional costs to relocate from one facility to another if the GEDCA Board does not agree to waive the stipulated lease requirements. The following provides the chronological events leading to the closure at the Sunny Plaza:

February 2003	General Service Administration (GSA) notified DOL of the award to lease the Hakubotan facility. DOL Acting Director submits requests for "sole source" procurement to continue the use of Sunny Plaza for the operation of the One-Stop Career Center and the Agency for Human Resources Development.
---------------	---

March 2003	DOL Guam Employment Service, first of DOL's division, relocated to Hakubotan from Guam Premier Outlets.

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-03, Continued
Federal Agency: U.S. Department of Labor
CFDA No.: 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Procurement and Suspension and Debarment
Questioned Costs: \$289,027

Auditee Response and Corrective Action Plan, Continued:

March – June 2003	Other DOL divisions gradually relocated from Tiyan, Barrigada to Hakubotan facility. Both the AHRD Director and the One-Stop Career Center Executive Director were notified by DOL Director to make preparations for the relocation of their operations to Hakubotan.
May 2003	AHRD staff solicited quotes for the new workstations and data line installation in preparation for the relocation. Unconfirmed reports circulated among the agencies that DOL has been advised by the Department of Administration and GEDCA that CALS Corporation was in violation of its property lease with GEDCA. DOL was still under the assumption that a resolution to waive CALS stipulated order was being reconsidered.
June 2003	Still under the assumption that GEDCA Board will waive CALS lease requirements, DOL submitted a Notice of Interest to terminate lease with Sunny Development by June 30, 2004, affecting immediate relocation of the One-Stop Career Center and AHRD. AHRD Director and One-Stop Career Center Executive Director, in joint efforts, appealed to the DOL Director to reconsider its position on the relocations and instead opt to request GSA for a month-to-month arrangement until the technical issue with GEDCA is resolved. DOL Director with no further word from GEDCA Board, reconsidered and delegated the OSCC Executive Director to make the appeal with GSA.
July 2003	OSCC Executive Director invited the Guam Workforce Investment Board Chair, Maria Connelley to attend the meeting with GSA Acting Chief Procurement Officer, Jose Balajadia. After lengthy deliberations on the Hakubotan and Sunny Plaza lease, and the length of time it will take to process a new RFP, the Acting Chief Procurement Officer agreed that in the best interest of the government, the month-to-month option. U.S. DOL Region VI Federal Officials (Jon Lampman and John Jacobs) during site visit to conduct AHRD WIA training and for AHRD NEG Program review were made aware of the Sunny Plaza Lease expiration on July 31, 2003, and the technical issue on DOL's lease with CALS Corporation. Sunny Plaza Development Corporation consented to the month-to-month at the same lease arrangement with a 30-day termination notice.
February 2004	GSA under the Department of Mental Health PDN Request for Proposal solicitation to lease included Department of Labor's need for a new facility.
September 2004	Guam Capital Investment Corporation was awarded a 3-year lease for DOL occupancy at the GCIC facility in Hagatna.
November 2004	DOL and AHRD Closure at Sunny Plaza.

Corrective Action Plan:

1. The Agency will provide copies of the board minutes approving each training or service provider and attach to the contract executed by and between the provider and the agency to detail the significant history of the procurement.
2. The Agency for FY2005 engaged in a contract between the Guam Capital Investment Corporation for lease facilities. As part of our corrective measures, the agency has encumbered all funds necessary to pay for the agency's leased space to prevent any citation for illegal procurement.

Finding No.: 04-03, Continued
Federal Agency: U.S. Department of Labor
CFDA No.: 17.258/17.259/17.260

Area: Procurement and Suspension and Debarment
Questioned Costs: \$289,027

Auditee Response and Corrective Action Plan, Continued:

Claudia S. Acfalle, Chief Procurement Officer, Guam General Services Agency, provided the following response:

On October 30, 1998, the Governor approved contract #C990600870 for the lease of office space with Sunny Plaza and the Department of Labor. Pursuant to Article 11 on page 8, item 11.2, it allowed the government to continue leasing on a month-to-month basis. Therefore, the government chose to continue on a month-to-month.

Due to the late submittal of the funding document GSA had to ratify the invoice for payment since it was for prior months rental. Therefore, the procurement was properly documented.

Bid solicitation number GSA-036-04 was issued and awarded to GCIC Building for lease of office space for the Department of Labor and Agency for Human Resources Development for a period of 1 year with the option to renew for (3) years based upon availability of funds.

GSA will continue to improve the processes and to uphold the integrity within the procurement activities of this government.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-04
Federal Agency: U.S. Department of Labor
CFDA No. 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Matching, Level of Effort, Earmarking Requirements
Questioned Costs: \$0

Criteria:

The following earmarking requirements apply:

- (1) A State may reserve up to 15 percent of the amounts allotted for Adult, Dislocated Worker, and Youth Activities.
- (2) A State may spend up to five percent of the amount allotted for the State's administrative costs
- (3) The State must reserve for rapid response activities a portion of funds, up to 25 percent, allotted for dislocated workers.
- (4) A local area may expend no more than ten percent of the Adult, Dislocated Worker, and Youth Activities funds allocated to the local area under sections 128(b) and 133(b) of the Act for administrative costs.
- (5) Thirty percent of the Youth Activity funds allocated to the local areas, except for the local area expenditures for administration, must be used to provide services to out-of-school youth (20 CFR section 664.320).
- (6) A minimum of 95 percent of eligible participants in Youth Activities must meet the criteria of disadvantaged low-income youth as defined in 29 USC 2801(25) (20 CFR section 664.220).

Condition:

The Government of Guam has not provided financial data to substantiate whether earmarking requirements have been met.

Cause:

There appears to be weak internal control over ensuring compliance with applicable earmarking requirements.

Effect:

The Government of Guam is in noncompliance with applicable earmarking requirements. No questioned cost is presented at this finding, as we are unable to quantify the noncompliance.

Recommendation:

The Government of Guam should strengthen internal controls to ensure compliance with applicable earmarking requirements.

Auditee Response and Corrective Action Plan:

Maria S. Connelley, Director of Labor, Guam Department of Labor, provided the following response:

Auditee Response:

The agency is attaching copies of ETA Form 9076, which reflects the earmarking requirements of the grant. The agency is in agreement that the Adult, Youth, Dislocated Worker, Rapid Response, Local Administration and Statewide Activities accounts were not established with the Department of Administration (DOA) for FY 2004.

Corrective Action Plan:

The agency as part of the corrective measures will be establishing the appropriate accounts, which reflect the earmarking requirements of WIA clusters beginning July 1, 2005 or Program Year 2005.

GOVERNMENT OF GUAM

Finding No.: 04-05
Federal Agency: U.S. Department of Labor
CFDA No. 17.258/17.259/17.260
Program Name: WIA Cluster
Area: Reporting
Questioned Costs: \$0

Criteria:

In accordance with applicable federal financial reporting requirements, financial data, including earmarked funds and program income, should be accurately reported on such federal financial reports as SF 272 Federal Cash Transactions Report and Form ETA-9076 Series of financial status reports.

Condition:

The Government of Guam has not provided federal financial reports for program years 2003 & 2002. Furthermore, detailed financial data was not provided to substantiate applicable requirements.

Cause:

There appears to be weak internal record keeping controls.

Effect:

The Government of Guam may be in noncompliance with applicable federal financial reporting requirements, earmarking requirements, and program income requirements.

Recommendation:

The Government of Guam should strengthen internal record keeping controls. Also, the Government of Guam should provide the requested federal financial reports to effect resolution of this finding.

Auditee Response and Corrective Action Plan:

Maria S. Connelley, Director of Labor, Guam Department of Labor, provided the following response:

Auditee Response:

The agency is attaching copies of ETA Form 9076, which reflects the earmarking requirements of the grant. The agency is in agreement that the Adult, Youth, Dislocated Worker, Rapid Response, Local Administration and Statewide Activities accounts were not established with the Department of Administration (DOA) for FY 2004.

Corrective Action Plan:

The agency as part of the corrective measures will be establishing the appropriate accounts, which reflect the earmarking requirements of WIA clusters beginning July 1, 2005 or Program Year 2005. This will allow for the Department of Administration to generate the necessary ETA9076 reports accordingly.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-06
Federal Agency: U.S. Environmental Protection Agency
CFDA No. 66.600
Program Name: Environmental Protection Consolidated Grants: Program Support
Area: Special Tests and Provisions
Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements and grant terms and conditions, the Government of Guam must ensure that at least 8% of federal funds for prime contracts and subcontracts for supplies, construction, equipment or services are made available to organizations owned or controlled by socially and economically disadvantaged individuals and women (the Fair Share policy).

Condition:

The Government of Guam could not provide documentation to support compliance with the Fair Share Policy under 2004 Grant # M-009063-04-0. Bid documents and contracts did not include documentation relating to the Fair Share percentage.

Cause:

There appears to be a lack of internal control over ensuring compliance with the Fair Share policy.

Effect:

The Government of Guam is in noncompliance with applicable special tests and provisions and grant terms and conditions regarding the Fair Share policy. No questioned cost is presented at this finding, as we are unable to quantify the extent of noncompliance.

Recommendation:

The Government of Guam should ensure compliance with the Fair Share policy, by including the Fair Share percentage in bid documents and contracts.

Auditee Response and Corrective Action Plan:

Fred M. Castro, Administrator, Guam Environmental Protection Agency, provided the following response:

A copy of bid documents for FY 05 are attached to show that Grantee has since implemented this policy.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-07
Federal Agency: U.S. Environmental Protection Agency
CFDA No. 66.600
Program Name: Environmental Protection Consolidated Grants: Program Support
Area: Special Tests and Provisions
Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements and grant terms and conditions, the Government of Guam must develop and implement a communications strategy to inform and interact with water systems.

Condition:

The Government of Guam has not developed a water systems communications strategy under 2004 Grant # M-009063-04-0.

Cause:

There appears to be a lack of internal control over ensuring compliance with this requirement.

Effect:

The Government of Guam is in noncompliance with applicable special tests and provisions and grant terms and conditions regarding the development and implementation of a water systems communications strategy.

Recommendation:

The Government of Guam should ensure compliance with its grant terms and conditions. A written communications/information strategy should be developed and implemented.

Auditee Response and Corrective Action Plan:

Fred M. Castro, Administrator, Guam Environmental Protection Agency, provided the following response:

This will be implemented by September 2005.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-08
Federal Agency: U.S. Environmental Protection Agency
CFDA No. 66.600
Program Name: Environmental Protection Consolidated Grants: Program Support
Area: Special Tests and Provisions
Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements and grant terms and conditions, all equipment purchases valued at \$5,000 or more may only be purchased if approved by the USEPA project officer.

Condition:

For one (or 17%) out of six equipment purchase orders tested, the Government of Guam did not obtain prior approval for the following purchase order under 2004 Grant # M-009063-04-0:

<u>PO #</u>	<u>Amount</u>
PO46A06693	\$ 71,444

Cause:

There appears to be a lack of internal control over ensuring compliance with grant terms and conditions.

Effect:

The Government of Guam is in noncompliance with applicable special tests and provisions and grant terms and conditions requiring approval of equipment purchases over \$5,000. A total of \$71,444 is questionable; however, no questioned cost is presented at this finding as no drawdown was made, and no expenditure was recorded, in FY 2004.

Recommendation:

Purchases of equipment over \$5,000 should be approved by the required USEPA Project Officer prior to purchase.

Auditee Response and Corrective Action Plan:

The Government of Guam has not provided a response.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-09
Federal Agency: U.S. Environmental Protection Agency
CFDA No. 66.600
Program Name: Environmental Protection Consolidated Grants: Program Support
Area: Allowable Costs/Cost Principles
Questioned Costs: \$0

Criteria:

In accordance with applicable allowable costs/cost principles requirement, fines, penalties, damages, and other settlements resulting from violations (or alleged violations) of, or failure of the governmental unit to comply with Federal or local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the Federal award or written instructions by the awarding agency authorizing in advance such payments.

Condition:

For one (or 6%) out of 17 transactions, aggregating \$382,597 of \$1,181,749 in total Program non-payroll expenditures, the Grantor agency determined that it had overpaid \$28,772 to the grantee for Reimbursement #09 and requested repayment. The grantee repaid EPA Region IX with check number 103210 on January 29, 2004, but charged the Federal program under account number 5101E042298PA107230. There are no written instructions by the awarding agency authorizing such payment from Federal funds under 2004 Grant # M-009063-04-0.

Cause:

There appears to be weak internal control over ensuring that fines, penalties, damages, and other settlements resulting from violations (or alleged violations) of, or failure of the governmental unit to comply with Federal or local laws and regulations are not charged to the Program.

Effect:

The Government of Guam is in noncompliance with applicable allowable costs/cost principles requirement. No questioned cost is presented at this finding, as \$28,772 was credited to program expenditures and charged to local funds on June 6, 2005.

Recommendation:

The Government of Guam should strengthen internal controls to ensure compliance with applicable allowable costs/cost principles over fines, penalties, damages, and other settlements resulting from violations (or alleged violations) of, or failure of the governmental unit to comply with Federal or local laws and regulations.

Auditee Response and Corrective Action Plan:

Fred M. Castro, Administrator, Guam Environmental Protection Agency, provided the following response:

A journal voucher has been processed to transfer this cost to local funds.

Auditors' Response:

We reviewed the journal voucher dated June 6, 2005, noting the Government of Guam has credited program expenditures in the amount of \$28,772 and charged local funds.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-10
Federal Agency: U.S. Environmental Protection Agency
CFDA No. 66.600
Program Name: Environmental Protection Consolidated Grants: Program Support
Area: Procurement and Suspension and Debarment
Questioned Costs: \$21,107

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Condition:

For 1 (or 7%) of 14 transactions, aggregating \$382,597 of \$1,181,749 in total Program non-payroll expenditures, there is no significant history of the procurement on file for the following transactions under 2004 Grant # M-009063-04-0:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
01/09/04	101905	A0097033	GEPA	D042200012	\$ 21,107

Cause:

There appears to be a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. A questioned cost of \$21,107 exists.

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

Recommendation:

The procurement officer should establish and implement internal control procedures to ensure that all procurements are documented in sufficient detail in compliance with applicable procurement requirements. The procurement officer should not approve purchase orders to procure goods/services from a particular vendor unless such procurement documents as solicitation ads, bid abstracts, or other written memoranda are documented on file to detail the significant history of the procurement.

Auditee Response and Corrective Action Plan:

Fred M. Castro, Administrator, Guam Environmental Protection Agency, provided the following response:

Supporting documents are attached.

Auditors' Response:

We reviewed the supporting documents, noting that in a letter dated December 10, 2003, the U.S. Environmental Protection Agency approved Guam EPA's request to pay the transaction, which was a prior year obligation. However, no procurement records were provided. Therefore, the finding remains.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-11
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.563
Program Name: Child Support Enforcement
Area: Special Tests and Provisions – Locate Absent Parents
Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements and 45 CFR 303, the State IV-D agency must attempt to locate the absent parent or sources of income and/or assets within no more than 75 calendar days. In addition, the State IV-D agency must attempt to establish paternity and a support obligation for children born out of wedlock.

Condition:

Of 45 case files tested, we noted the following conditions relative to 2004 Grant # 04-04GU4004:

1. For eleven (or 24%), there is no documentation to evidence that the agency attempted to establish paternity for the following cases: 16025, 16427, 15905, 16284, 16410, 16443, 16314, 16011, 16362, 16098, and 16364.
2. For three (or 7%), the attempt to locate the absent parent occurred after the maximum 75-calendar-day requirement for the following cases: 15863, 15981, and 15874.

Cause:

There appears to be weak internal control over ensuring that required services under 45 CFR 303 are provided to eligible individuals.

Effect:

There is no known effect on the financial statements as a result of this condition. However, the grantee is in noncompliance with applicable special tests and provisions requirements and 45 CFR 303. No questioned cost is presented at this finding, as we are unable to quantify the noncompliance.

Recommendation:

The grantee should strengthen internal controls to ensure that the responsible personnel attempts to locate absent parents within 75 calendar days and properly documents such attempt on file in accordance with applicable special tests and provisions requirements and 45 CFR 303.

Auditee Response and Corrective Action Plan:

Barbara P. Cepeda, IV Director, Guam Office of the Attorney General, provided the following response:

[Condition 2]:

Case No. 15863: Agree. CP applied for service 9/21/03. Locate letter sent April 1, 2004. UIFSA package filed in court on 5/11/04.

Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements and 45 CFR 74.53, all programmatic documents, such as birth certificates and social security numbers should be maintained on file for at least three years.

Condition:

For 2 (or 4%) out of 45 case files tested relative to 2004 Grant # 04-04GU4004, there was no social security number of the child or children in the file for the following cases: 16401 and 15891.

Cause:

There appears to be weak internal control over ensuring that required social security numbers and birth certificates are maintained on file for at least three years.

Effect:

There is no known effect on the financial statements as a result of this condition. However, the grantee is in noncompliance with 45 CFR 74.53.

Recommendation:

The grantee should establish and implement internal controls to ensure compliance with 45 CFR 74.53.

Auditee Response and Corrective Action Plan:

Barbara P. Cepeda, IV Director, Guam Office of the Attorney General, provided the following response:

Case No. 16401: Agree. This is a IV-A referral case. We received only a copy of the birth certificate from Public Health. The case has been dismissed due to CSED inability to locate the NCP and the CP's non-cooperation in assisting us with the locate.

Condition:

Out of 45 case files tested relative to 2004 Grant # 04-04GU4004, we noted the following:

1. For 12 (or 27%), there is no documentation on file to indicate whether any services were provided after the case file was opened for the following cases: 16025, 16427, 15905, 16284, 16410, 16314, 16011, 16362, 16098, 16364, 16443 and 15894.
2. For 4 (or 9%), support obligation has not been established for the following cases: 15863, 16248, 16109, and 16006.

Cause:

There appears to be weak internal control over ensuring that required services under 45 CFR 302.33 are provided to eligible individuals.

Effect:

There is no known effect on the financial statements as a result of this condition. However, the grantee is in noncompliance with 45 CFR 302.33.

Recommendation:

The grantee should establish and implement internal controls to ensure that required services under 45 CFR 302.33 are provided to eligible individuals. Upon receiving an application for services, the responsible personnel should provide the necessary services and document such actions.

Case No. 16011: Agree. TANF referral received 1/20/04. We found out on 1/29/04 that the child no longer with CP. NCP (mom) went to school and took the child. We sent email to DPHSS informing them that child no longer in the household.

Case No. 16362: Agree. TANF referral received 5/11/04. No follow up work was done on the case.

Case No. 16098: Agree. CP applied for services 5/7/04. NCP in active Navy. Unable to locate NCP. No follow up work was done on this case.

Case No. 16364: Agree. TANF referral received 12/29/03. No address listed for NCP. Unable to locate NCP. No follow up work was done on this case.

Case No. 16443: See general response below.

Case No. 15894: Agree. TANF referral received 8/19/03. We attempted to locate NCP. CP didn't want services then CP applied for services on 10/29/04. Complaint sent to court on 6/16/05. Awaiting court hearing.

[Condition 2]:

Case No. 15863: Agree. CP applied for service 9/21/03. Locate letter sent April 1, 2004. UIFSA package filed in court on 5/11/04.

Case No. 16248: Agree. A complaint and summons were filed but CSED was unable to serve the NCP because he left to be stationed in Germany. We continue to be in contact with NCP and hope to resolve this matter through a stipulation without NCP having to return to Guam. Our last communication with NCP was on April 11, 2005.

Case No. 16109: Agree. TANF referral received 3/11/04. NCP lives in the Philippines. We need to locate NCP whether he has returned from P.I.

Case No. 16006: Agree. NCP applied for services 12/22/03; CP applied for services 1/20/04. Complaint was prepared 4/04, but then we found out that each child had guardians appointed. We contacted CP and informed her that the guardians need to fill out applications for services. We prepared new complaints naming the guardians as defendants since NCP applied for services first and he is considered the plaintiff.

We agree that in all of the cases cited, we did not obtain a support order. However, we did take action on most of the cases but were faced with several obstacles.

One major problem for failure to take action is that we receive TANF referrals with incomplete or inaccurate information on where to locate NCPs. We simply do not have the staff or the resources to locate people. Since we lost our locate staff, investigators have had to do their own locate, while trying to keep up with daily phone calls, emails, correspondence, and preparing cases for court hearings.

Another problem is that we get TANF referrals where the NCPs are not even on island and reside in places such as Chuuk, CNMI, or Philippines. In cases such as these, we are unable to collect from NCPs since we do not have reciprocity with these nations.

Questioned Costs:	\$0

Auditee Response and Corrective Action Plan, Continued:

Another problem is that we are waiting for information from CPs and they do not get back to us with the information that we need to proceed with the case. Again, investigators are busy answering phones and responding to emails and correspondence, that they do not have the time to follow up with CPs for the information they requested.

On all of the cases above cited, they have been forwarded to the assigned investigator to take further action or close the cases. We hope to assign one staff to do locate. For now, each worker is responsible for doing their own locate until we can hire someone to do it full time.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-14
Federal Agency: U.S. Department of Health and Human Services
CFDA #: 93.563
Program Name: Child Support Enforcement
Area: Procurement and Suspension and Debarment
Questioned Costs: \$97,548

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Condition:

Of 9 transactions tested, aggregating \$2,219,625 of \$2,808,851 in total Program non-payroll expenditures relative to 2004 Grant # 04-04GU4004, we noted the following conditions:

1. For 1 (or 11%), there is no significant history of the procurement on file for the following contract:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
06/10/04	0002668	A0096883	Law	C010600138	\$ 26,561
07/27/04	0005781	A0096883	Law	C010600138	26,561
10/28/04	0016001	A0096883	Law	C010600138	26,561
12/15/03	0100143	A0096883	Law	C010600138	26,561
02/11/04	0104024	A0096883	Law	C010600138	26,561
					<u>\$132,805</u>

2. For 1 (or 11%), the sole source method was used; however, the required supporting documentation is lacking or insufficient for the following transaction:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
12/17/03	0100280	I3076001	Law	P036A05012	\$14,995

The written justification for sole sourcing states "Only distributor/agent," and we reviewed certification from Vendor # I3076001 that it is the exclusive dealer for genuine Canon ImageRunner supplies, drum units and accessories, on Guam, the CNMI, and the Micronesian Islands. However, requisitions should not be brand specific, and there is no written justification for the specified brand.

Cause:

There appears to be a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. A questioned cost of \$97,548 exists (66% Federal share of total questionable costs of \$147,800).

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-14, Continued
Federal Agency: U.S. Department of Health and Human Services
CFDA #: 93.563
Program Name: Child Support Enforcement
Area: Procurement and Suspension and Debarment
Questioned Costs: \$97,548

Recommendation:

The procurement officer should establish and implement internal control procedures to ensure that all procurements are documented in sufficient detail in compliance with applicable procurement requirements. The procurement officer should not approve purchase orders to procure goods/services from a particular vendor unless such procurement documents as solicitation ads, bid abstracts, or other written memoranda are documented on file to detail the significant history of the procurement.

Auditee Response and Corrective Action Plan:

Barbara P. Cepeda, IV Director, Guam Office of the Attorney General, provided the following response:

[Condition 1]: Please refer to Exhibit A for Ada's Inc. procurement documentation to satisfy procurement requirements pertaining to this audit finding. Attached at Exhibit A are copies of the following documents:

- 1) Copy of response from Ada's Inc. to the Department of Law Invitation To Bid For Office Space as published in the Pacific Daily News.
- 2) Copy of Invitation To Bid For Office Space as advertised in the Pacific Daily News.
- 3) Copy of Office Space Terms/Conditions and Specifications.
- 4) Copy of Lease Agreement as signed by respective parties, cleared by BBMR, and approved by Chief Procurement Officer.

Please note that [Vendor # A0096883] was the only company that responded to the Department of Law Invitation To Bid For Office Space.

Claudia S. Acfalle, Chief Procurement Officer, Guam Environmental Protection Agency, provided the following response:

[Condition 2]: [We] concur with the finding. However, the current CPO acknowledged this finding and immediately took action by issuing a memorandum on December 18, 2003. The CPO issued a memorandum of instruction that for any sole source procurement for compatibility or uniformity of equipments or supplies, a memorandum must be provided by the requesting agency/departments justifying the need for these type requirements.

GSA will continue to improve the processes and to uphold the integrity within the procurement activities of this government.

Auditors' Response:

Condition 1: We have reviewed the documents provided by the Program Office. However, there is no contemporaneous procurement document indicating that the selected vendor was the only company that responded to the bid invitation. Therefore, the finding remains.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-15
Federal Agency: U.S. Department of Health and Human Services
CFDA #: 93.563
Program Name: Child Support Enforcement
Area: Special Tests and Provisions – Provision of Services
Questioned Costs: \$0

Criteria:

In accordance with 45 CFR 303.7, the State IV-D agency must provide the appropriate child support services needed for interstate cases, establish an interstate central registry responsible for receiving, distributing and responding to inquiries on all incoming interstate IV-D cases, and meet required time frames pertaining to provision of interstate services.

Condition:

Out of 45 case files tested, we noted the following:

1. For 1 (or 2%) (i.e., case # 16163), case documentation was not sent within 10 days of the inquiry of the IV-D agency where the case was initiated, and the State IV-D agency was not notified within 30 days when the information would be ready.
2. For 4 (or 9%) (i.e., case # 15998, 16337, 15863, and 16282), upon determination of interstate case, IV-D agency did not send initiating documentation to State's interstate central agency within 20 days.
3. For 2 (or 4%) (i.e., case # 16337 and 15863), there was no review documentation on file or review documentation was not sent within 20 days to another State.

Cause:

There appears to be weak internal control over ensuring that required services under 45 CFR 303.7 are provided to eligible individuals.

Effect:

There is no known effect on the financial statements as a result of this condition. However, the grantee is in noncompliance with 45 CFR 303.7.

Recommendation:

The grantee should establish and implement internal controls to ensure that required services under 45 CFR 303.7 are provided to eligible individuals. Upon receiving an application for services, the responsible personnel should provide the necessary services and document such actions.

Auditee Response and Corrective Action Plan:

Barbara P. Cepeda, IV Director, Guam Office of the Attorney General, provided the following response:

[Condition 1]:

Case No. 16163: Agree. The Child Support Enforcement Division has taken corrective action to ensure that interstate packets received are routed to our records room to establish a physical file and routed to the assigned Investigator who will acknowledge receipt of the initiating packet to be in compliance with 45 CFR 303.7.

Auditee Response and Corrective Action Plan, Continued:

[Condition 2]:

Case No. 15998: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the initiating state. We currently assigned two Investigators to handle interstate cases and process the interstate packets to the responding state for action which will ensure compliance with 45 CFR 303.7.

Case No. 16337: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the initiating state. We currently assigned two Investigators to handle interstate cases and process the interstate packets to the responding state for action which will ensure compliance with 45 CFR 303.7.

Case No. 15863: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the initiating state. We currently assigned two Investigators to handle interstate cases and process the interstate packets to the responding state for action which will ensure compliance with 45 CFR 303.7.

Case No. 16282: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the initiating state. We currently assigned two Investigators to handle interstate cases and process the interstate packets to the responding state for action which will ensure compliance with 45 CFR 303.7.

[Condition 3]:

Case No. 16337: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the Initiating state. CSED will ensure that the address information in the applications is complete. The CSED interviewers have been instructed to ensure that the information stated on the applications is complete with all the required information needed to process the interstate packet.

Case No. 15863: Agree. The Child Support Enforcement Division has taken corrective action to ensure the timely processing of the case to the Initiating state. CSED will ensure that the address information in the applications is complete. The CSED interviewers have been instructed to ensure that the information stated on the applications is complete with all the required information needed to process the interstate packet.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-16
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.778
Program Name: Medicaid
Area: Eligibility
Questioned Costs: \$62,592

Criteria:

In accordance with applicable eligibility requirements, eligibility determinations should be documented, including such supporting documents as application worksheets, benefit calculations, social security cards, proof of citizenship, verification of employment, and recertification.

Condition:

Of 79 items tested, we noted the following conditions:

1. For 2 (or 3%), the Government of Guam did not provide the case file for the following:
 - a. 10-24286, \$26,002 claimed
 - b. 10-27951, \$14,603 claimed
2. For 3 (or 4%), no social security card(s) are on file for case numbers 33-31045, 33-72140, and 33-26162.
3. For 2 (or 3%), the most recent certification and/or renewal or application is in 2001 for the following:
 - a. 30-71350, \$19,757 claimed
 - b. 30-53262, \$2,230 claimed
4. For 4 (or 5%), re-determination of eligibility took more than six months for case numbers 33-73272, 33-54101, 33-55327, and 33-60031.
5. For all cases, there is no documentation to support that income and eligibility verification system (IEVS) was used to verify eligibility.

Cause:

There appears to be weak record keeping controls.

Effect:

A questioned cost of \$62,592 exists. The Government of Guam is in noncompliance with applicable eligibility requirements.

Prior Year Status:

The above condition is reiterative of conditions identified in our prior year audit of the Government of Guam.

Recommendation:

The Department of Public Health and Social Services should strengthen record keeping controls to ensure that case files are maintained on file for at least three years to substantiate expenditures.

Auditee Response and Corrective Action Plan:

Arthur U. San Agustin, Acting Director, Guam Department of Public Health and Social Services, provided the following response:

[Condition 1]: Agree. We are still trying to locate the files.

[Condition 2]: 33-31045 – Agree. Client will request replacement SS card from SSA

[Condition 3]:

30-71350 – Agree. The case file reviewed by the auditor was file #016716N. This file was transferred from Central to Northern on 11/01/01 and contained the 2001 documents. Another case file was opened in Central, file #60-114. Case file #60-114 contains the 2/2004 and 2/2005 Renewal applications and a change report dated 11/30/03 reporting newborn and includes [newborn's] birth certificate and SSN card. This case file is now available for re-review. However, the 8/5/03 application is not in this case file. The 8/5/03 application may be in case file #8862C which could not be located (see attached).

30-53262 – Agree. File #008767 is available for re-review. The October 13, 2004 Renewal application and other 2001 documents are in this file. However the original case file #0305, which contains the 4/08/03 application and supporting documents cannot be located (see attached).

[Condition 4]: Agree.

[Condition 5]: Agree.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-17
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.778
Program Name: Medicaid
Area: Procurement and Suspension and Debarment
Questioned Costs: \$0

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and basis for the contract price. Furthermore, in accordance with the applicable local procurement law, the Guam General Services Agency shall procure from the United States when the cost is less by ten percent than from other contractors and such cost-savings analysis should be maintained on file.

Condition:

For one (or 1%) out of 72 transactions, aggregating \$14,904,718 of \$18,331,586 in total Program non-payroll expenditures relative to 2004 Grant # 75X0512, goods were procured from a vendor with a Federal GSA contract; however, the required cost-savings analysis was not documented for the following transaction:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
9/27/2004	0009667	G0097192	DPHSS	P046A04104	\$60,852

Cause:

There appears to be a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. No questioned cost exists as the procurement files contained evidence that open competition was made.

Prior Year Status:

The above condition is reiterative of conditions identified in prior years' audits of the Government of Guam.

Recommendation:

The procurement officer should establish and implement internal control procedures to ensure that all procurements are documented in sufficient detail in compliance with applicable procurement requirements. The procurement officer should not approve purchase orders to procure goods/services from a particular vendor unless such procurement documents as solicitation ads, bid abstracts, or other written memoranda are documented on file to detail the significant history of the procurement.

Auditee Response and Corrective Action Plan:

Arthur U. San Agustin, Acting Director, Guam Department of Public Health and Social Services, provided the following response:

We disagree with the finding. As a line agency of the Government of Guam, the Department of Public Health and Social Services (DPHSS) does not have procurement delegation to procure for supplies or services. All request for supplies or services are processed by submitting a requisition form and forwarded to General Service Agency, GSA, where all procurement activities are negotiated and thereafter, awarded. Attached, please find General Services Agency Circular No. 2000-05 dated March 28, 2000 regarding instruction on the submission of requisitions.

Area: Procurement and Suspension and Debarment
Questioned Costs: \$0

Auditee Response and Corrective Action Plan, Continued:

Claudia S. Acfalle, Chief Procurement Officer, Guam General Services Agency, provided the following response:

[We] disagree with this finding. The method utilized in the procurement of computers on [P046A04104] was procuring through the 5GCA §5122 U.S. Government. The abstract in the procurement file indicated that the local vendors did not meet the required warranty as requested by the Department of Administration. The Chief Procurement Officer will ensure that the 10% preference is shown on the abstract of each procurement file utilizing the U.S. Contract source method.

GSA will continue to improve the processes and to uphold the integrity within the procurement activities of this government.

Auditors' Response:

No cost-savings analysis was documented. Therefore, the finding remains.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-18
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.994
Program Name: Maternal and Child Health Services Block Grant
Area: Period of Availability of Federal Funds
Questioned Costs: \$0

Criteria:

In accordance with applicable period of availability requirements, funds available to States from their allotment for any fiscal year are available for obligation by the State in that fiscal year or in the succeeding fiscal year.

Condition:

At the end of fiscal year 2004, unliquidated/unobligated balances remain after the fund's period of availability, as follows:

<u>Grant Year</u>	<u>End of Availability</u>	<u>Unliquidated Balance</u>	<u>Unobligated Balance</u>	<u>Grant Award #</u>
2001	2002	\$949	\$11,815	2B04MC0034805
2002	2003	0	9,210	2B04MC0034806
2003	2004	0	19,165	MC0034807-Q101
		<u>\$949</u>	<u>\$40,190</u>	

Cause:

There appears to be weak internal control over ensuring that available balances are deappropriated/ deencumbered after the fund's period of availability.

Effect:

The available balances for grant years 2001 through 2003 are misstated. If the balances are not properly deappropriated/deencumbered, the grantee could potentially expend Federal funds in noncompliance with applicable period of availability requirements. No questioned cost is presented at this finding as expenditures in FY 2004 have been charged to grants within the fund's period of availability.

Recommendation:

The Government of Guam should strengthen internal controls to ensure that Federal funds are no longer available for obligation or expenditure after the fund's period of availability. When the fund's period of availability ends, responsible personnel should deappropriate/deencumber unexpended balances.

Auditee Response and Corrective Action Plan:

Arthur U. San Agustin, Acting Director, Guam Department of Public Health and Social Services, provided the following response:

As per Section 503 of Title V of the Social Security Act, "funds allocated to States are available for obligation and expenditure over a two-year period. For example, funds appropriated and allocated to the States in FY 1999 (starting October 1, 1998) are available for obligation and expenditure through September 30, 2000.

Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.994
Program Name: Maternal and Child Health Services Block Grant
Area: Matching, Level of Effort, Earmarking
Questioned Costs: \$0

Criteria:

In accordance with applicable level of effort – maintenance of effort requirements, the State must maintain the level of funds provided solely by the State for maternal and child health programs at a level at least equal to the level provided in FY 1989 (42 USC 705(a)(4)).

Condition:

The Government of Guam did not provide the necessary documents, indicating compliance with the above criteria, relative to 2004 Grant # 1B04MC0243901.

Cause:

There appears to be weak internal control over record keeping.

Effect:

The Government of Guam may be in noncompliance with applicable level of effort, maintenance of effort requirements. No questioned cost is presented at this finding, as we are unable to quantify the noncompliance.

Recommendation:

The Government of Guam should provide the necessary documents to effect resolution of this finding.

Auditee Response and Corrective Action Plan:

Arthur U. San Agustin, Acting Director, Guam Department of Public Health and Social Services, provided the following response:

The Program is working with federal counterparts to provide documentation of the Maintenance of Effort provided for in FY 1989.

Finding No.: 04-20
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.994
Program Name: Maternal and Child Health Services Block Grant
Area: Matching, Level of Effort, Earmarking
Questioned Costs: \$0

Criteria:

In accordance with applicable earmarking requirements,

1. The State must use at least 30 percent of payment amounts for preventive and primary care services for children (42 USC 705(a)(3)(A)).
2. The State must use at least 30 percent of payment amounts for services for children with special health care needs (42 USC 705(a)(3)(B)).
3. A State may not use more than 10 percent of allotted funds for administrative expenses (42 USC 704(d)).

Condition:

The Government of Guam did not provide the documents, indicating compliance with the above criteria, relative to 2004 Grant # 1B04MC0243901.

Cause:

There appears to be weak internal control over record keeping.

Effect:

The Government of Guam may be in noncompliance with applicable earmarking requirements. No questioned cost is presented at this finding, as we are unable to quantify the noncompliance.

Recommendation:

The Government of Guam should provide the necessary documents to effect resolution of this finding.

Auditee Response and Corrective Action Plan:

Arthur U. San Agustin, Acting Director, Guam Department of Public Health and Social Services, provided the following response:

The audit performed was for year ending September 30, 2004. The MCH Program Guam will be reporting the expenditure related to the "30-30-10" split in the grant application submitted July 15, 2005.

Finding No.: 04-21
Federal Agency: U.S. Department of Health and Human Services
CFDA No. 93.994
Program Name: Maternal and Child Health Services Block Grant
Area: Procurement and Suspension and Debarment
Questioned Costs: \$15,700

Criteria:

In accordance with applicable procurement requirements, the grantee will maintain records sufficient to detail the significant history of a procurement. These records will include a rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Condition:

Of 7 transactions tested, aggregating \$41,746 of \$150,868 in total Program non-payroll expenditures relative to 2004 Grant # 1B04MC0243901, we noted the following conditions:

1. For 1 (or 14%), blanket purchase authority was used; however, the required supporting documentation is lacking or insufficient for the following transaction:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
01/08/04	0101620	L2926001	DPHSS	P046A00539	\$4,500

The written justification documents the need for pharmacy services for the Central Regional Health Center, but does not specify a rationale for selecting Vendor # L2926001 over any other pharmacist.

2. For 1 (or 14%), informal quotations were solicited from seven medical supply companies, and the vendor was selected for submitting the sole quotation. However, the other vendors were given only one day to respond to the quotation. Therefore, it appears that open competition was limited for the following transaction:

<u>Check Date</u>	<u>Transaction #</u>	<u>Vendor #</u>	<u>Guam Agency</u>	<u>Reference #</u>	<u>Amount</u>
07/27/04	0005849	M3896504	DPHSS	P046A03511	\$ 11,200

Cause:

There appears to be a lack of internal control over ensuring compliance with applicable procurement requirements.

Effect:

The Government of Guam is in noncompliance with applicable procurement requirements. A questioned cost of \$15,700 exists.

Auditee Response and Corrective Action Plan:

Claudia S. Acfalle, Chief Procurement Officer, Guam General Services Agency, provided the following response:

[Condition 2]: [We] disagree with finding. Although the buyer indicated one (1) day turn around time on the request for quotation, the vendors did not respond as requested (1-day), however, the buyer still received some feedback from several of the vendors beyond the (1-day) turn around time as noted on the request for quotation.

The CPO instructed the buyer to re-issue the request for quotation to allow the vendors adequate time to prepare a response. Refer to attached documents.

GSA will continue to improve the processes and to uphold the integrity within the procurement activities of this government.

Auditors' Response:

Based on our review of the solicitation documents faxed to the vendors, we noted the reissued requests still indicated a one-day response time. Therefore, the finding remains.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-22
CFDA No. All
Area: Cash Management
Questioned Costs: \$0

Criteria:

In accordance with applicable cash management requirements, the time elapsed between the receipt of Federal funds and the clearance of disbursed checks should be minimized. Based on our review of the Treasury-State Agreement, the specified clearance pattern for Guam is 1 day.

Condition:

For 155 (or 53%) of 291 transactions tested, the time elapsed between the receipt of Federal funds and the clearance of disbursed checks exceeded one day, ranging from 2 to 373 days, as follows:

<u>CFDA #</u>	<u># of Transactions</u>
10.557	4
10.561	2
15.875	22
17.258/259/260	4
20.205	25
66.600	6
83.544	51
93.563	24
93.778	15
93.994	2
	<u>155</u>

Cause:

The Government of Guam lacks a uniform policy of drawing down Federal funds.

Effect:

The Government of Guam may be in noncompliance with applicable cash management requirements.

Recommendation:

The Government of Guam should establish and implement a uniform policy for drawing down Federal funds to ensure that the time elapsed between the receipt of Federal funds and the check disbursement is minimized. The established procedures should be sufficiently detailed so that any given drawdown can be easily traced to the Federal cash receipt date and the check disbursement date(s); likewise, any given check disbursement can be easily traced to the Federal cash receipt date.

Auditee Response and Corrective Action Plan:

Michael D. Cabral, Federal Grants and Compliance Branch, Division of Accounts, Guam Department of Administration, provided the following response:

The Government of Guam received a U.S. Treasury Cash Management Improvement Act Training on April 2005 which was conducted by Mr. Fred Williams. After the training, Department of Administration, The Treasurer of Guam and Mr. William met to amend the CMIA agreement that best suits GovGuam's financial obligations.

The Department of Administration intends to implement the Zero-Based Accounting funding technique by 2006. Check write will slowly be replaced by Electronic Fund Transfer method. This will decrease the lapse time of funds between the receipt of Federal funds to the vendors' bank.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-23
CFDA No.: All
Area: Indirect Costs
Questioned Costs: \$0

Criteria:

In accordance with applicable cost principles, only approved rates should be used to calculate indirect costs.

Condition:

Indirect costs reported for FY 2004 are based on rates in the Indirect Cost Negotiation Agreement for FY 2003, which was no longer effective for periods after September 30, 2003.

Cause:

The Government of Guam has not yet received an approved indirect cost negotiation agreement for FY 2004. Indirect cost rate proposals were submitted to the cognizant agency subsequent to FY 2004.

Effect:

The Government of Guam is in noncompliance with applicable cost principles. There is no questioned cost presented at this finding, as indirect costs for FY 2004 have not yet been charged to the Federal Grants Fund. Furthermore, due to the delayed submission of indirect cost rate proposals, the Government of Guam runs the risk of having Federal grants expire and of losing indirect cost recoveries.

Recommendation:

Absent an approved indirect cost negotiation agreement for the current fiscal year, the Government of Guam should obtain, in writing, Federal grantor agency approval to apply expired rates. Furthermore, the Government of Guam should strengthen internal controls to ensure that indirect cost rate proposals are submitted to the cognizant agency in a timely manner.

Auditee Response and Corrective Action Plan:

Michael D. Cabral, Federal Grants and Compliance Branch, Division of Accounts, Guam Department of Administration, provided the following response:

The Department of Administration shall work closely with the Bureau of Budget and Management to acquire an approved indirect cost rate in a timely manner. In the absence of an approved rate, the department shall request to the grantor for approval to use the latest approved negotiated rate.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No.: 04-24
CFDA No.: All
Area: Equipment management
Questioned Costs: \$0

Criteria:

In accordance with Section 32(d) of the Common Rule, Equipment Management Requirements, governmental agencies that acquire equipment through Federal funds are required to perform a physical inventory and reconcile such to the property records at least once every two years. In addition, adequate maintenance procedures must be established to keep the property in good condition.

Condition:

The Government of Guam has not conducted the required comprehensive physical inventories of its equipment.

Cause:

The Government is currently in the process of implementing its fixed asset management system. Efforts are being made to tag all equipment with bar code property identification labels. Until the Government completes tagging of all equipment, it will not be able to conduct a physical inventory.

Effect:

The Government is in noncompliance with applicable Federal regulations.

Prior Year Status:

The above condition is reiterative of conditions identified in our prior year audit of the Government of Guam.

Recommendation:

The Government of Guam should complete tagging of all equipment and conduct a physical inventory immediately thereafter.

Auditee Response and Corrective Action Plan:

The Government of Guam has begun implementation of adopting GASB34, Basic Financial Statements and Management's Discussion and Analysis, for State and Local Governments. There are two (2) stages in this approach. The first stage is to record all capital assets such as buildings, and infrastructure, which has been completed. The second stage is to compile all fixed asset records, which is ongoing.

Please refer to the Department of Administration's Organizational Circular No 03-004 provided to all line agencies to comply with its procedures (Exhibit B).

The Department of Administration (DOA) has provided a circular to all line agencies in the Government of Guam to provide a comprehensive listing of their assets. DOA's objective is to compare the department's actual inventory records to its existing database for completeness and reconciliation. After this is performed, physical observation of fixed assets can be performed. Prospectively, DOA will also enhance its AS400 Budget and Accounting Information System to ensure all purchases from the accounts payable module are linked into the fixed assets module. The time line for the above procedure is Fiscal Year 2005.

Auditee Response and Corrective Action Plan, Continued:

Since February 26, 2003 when DOA issued DOA Organizational Circular No. 03-004, we have been updating our strategic plan with the help of [a contracted] DOA Consultant on this matter. In addition, we are seeking an amendment to the law increasing the capital outlay threshold from \$500 to \$5,000. This legislative change will greatly reduce the number of assets to be reported in the fixed assets inventory.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-25 - Cash

Criteria: Bank reconciliations are to be prepared on a monthly basis and reconciling items investigated in a timely manner.

Condition: At September 30, 2004, combined cash balances for the following governmental funds indicated unreconciled differences:

<u>Fund #</u>	<u>Bank Balance</u>	<u>Outstanding Checks</u>	<u>Deposits In Transit</u>	<u>Expected Book Balance</u>	<u>Actual Book Balance</u>	<u>Variance</u>
100	\$ 34,348,800	\$ (18,644,416)	\$ 1,390,316	\$ 17,094,699	\$ 19,234,834	\$ (2,140,135)
101	2,898,699	(39,334)	-	2,859,365	3,080,388	(221,023)
205	125,199	-	23,686	148,886	(130,122)	279,008
209	583,581	-	660	584,241	237,159	347,082
232	42,565	-	-	42,565	21,074	21,491
416	287,227	-	138,618	425,845	498,251	(72,406)
602	722,654	-	-	722,654	463,937	258,717
Other	6,772,259	-	-	6,772,259	6,766,771	5,488
	<u>\$ 45,780,984</u>	<u>\$ (18,683,750)</u>	<u>\$ 1,553,280</u>	<u>\$ 28,650,514</u>	<u>\$ 30,172,292</u>	<u>\$ 1,521,778</u>

The net variance of \$1,521,778 pertained to various reconciling items not recorded in the general ledger. Audit adjustments were proposed to correct misstatements of cash balances within Fund #s 100, 101, 205, 209, 232, 416 and 602.

Cause: The cause of the above condition is timeliness of the bank reconciliation function, which does not appear to have been monitored.

Effect: The effect of the above condition is a misstatement of cash balances.

Prior Year Status: The above condition is reiterative of conditions identified in the prior year audit of the Government of Guam.

Recommendation: We recommend that bank reconciliations be prepared for all bank accounts on a monthly basis. Items outstanding over one month should be investigated. Monitoring is encouraged to ensure that regular monthly reconciliations occur.

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

The DOA generally agrees with the cited condition. Subsequent research and analysis were performed and journal vouchers were prepared accordingly to resolved material reconciling items. The Division of Accounts continually performs research and analysis to resolve bank reconciliation reconciling items.

Bank reconciliation processes are undertaken on a monthly basis, however bank reconciling items resolution require the investment of time and human resources.

The DOA hired an accounting technician to provide the basic need for technical duties and responsibilities for the bank reconciliation section. In addition a senior accountant is tasked to provide the professional assistance to resolve bank reconciliation reconciling items.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-26 – Accounts Receivable - Other

Criteria: Collectibility of accounts receivable should be monitored. Collection efforts should be enforced at all times to ensure that account balances are current.

Condition: The accounts receivable-other account is comprised mostly of Tenda purchases by both line agencies and autonomous agencies with a balance of \$4.6 million outstanding as of fiscal year end. Three of four samples randomly selected indicated that payments received during the year did not substantially reduce receivable balances. No statements of account were sent to agencies. Therefore, reconciliation with debtors is difficult. There was no specific staff assigned to monitor billing and collection of Tenda account charges. Audit adjustments were proposed to record an allowance for doubtful accounts and reduce accounts receivable to their net realizable value.

Cause: There appears to be a shortage of staff assigned to monitor Tenda account charges.

Effect: There is a potential that only receipts turned in by employees of the various agencies are recorded as liabilities. If left unreconciled, such receivables may ultimately become uncollectible.

Recommendation: It is recommended that DOA staff be assigned responsibility for the billing and collection of Tenda (GSA) charges. Further, statements of account should be sent no less than on a quarterly basis. Purchases should be allowed by only agencies with accounts balances that are not past due.

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

The following control procedures are currently in place:

1. DOA currently maintains current billings against all Tenda accounts. Billings to autonomous agencies were sent on a monthly basis to these agencies.
2. DOA temporarily suspends accounts from obtaining fuel chits and ordering supplies from GSA if current bills are not paid. Billings prior to 2003 are still in a reconciliation stage. DOA is trying to work with each department to address discrepancies in records between offices.
3. DOA in conjunction with SPPC (76) has implemented the use of gas cards as a means to regulate and record fuel use by department. The implementation stage has taken some time to implement and is slowly being used by government agencies.

DOA has asked DMR to reprogram our current A/R files so that outstanding balances can be flagged by our accounts payable. This reprogramming has been completed and is currently active. The actual implementation of our offset and collection policies are still pending the response from the AG's Office regarding the legalities of offsets to government employees as well as vendors who have outstanding debts to the government.

Finding No. 04-27 – Other Receivables – Bounced Checks

Criteria:

1. Reconciliation between the general and subsidiary ledgers should occur on a regular basis. Reconciling items should be analyzed and adjusted in a timely manner to ensure the propriety of ledger balances.
2. Accounts receivable should be properly aged to ensure that uncollectible accounts are properly provided for.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-27 – Other Receivables – Bounced Checks, Continued

Conditions:

1. Variances exist between the general ledger (GL) and subledgers. There does not appear to be a concerted effort to ensure that reconciliation occurs. It was further noted that bounced checks entered into the GL system are dependent on how often the Treasurer of Guam furnishes the data for posting. A lag of between one week and one month seems to be the norm.
2. Approximately \$4 million was recommended for write off by the Public Auditor (OPA Report 04-07). However, only \$2.5 million was processed.
3. During fiscal year 2004, an entry to reduce receivables by \$2.5 million was recorded. However, there was no specific identification as to which checks were to be written off. The schedule provided was not properly reflective of the actual bounced check balance as of September 30, 2004. No inventory of bounced checks on hand was performed to support the general ledger balance.
4. The general ledger showed a total of \$5 million of bounced checks for which no allowance for uncollectible accounts was provided. The bounced checks list dates from as far back as fiscal year 1989, an indication that there may not to have been an effort to initiate collection or replacement of such checks.

An audit adjustment was proposed to record an allowance for uncollectible accounts and to reduce receivables to their net realizable value.

Causes:

1. There is no designated staff responsible for periodically reconciling the general and subsidiary ledgers. Further, due to staff shortages, a monitoring process does not exist that ensures that all bounced checks are completely and timely recorded.
2. There appears to be confusion in processing the correct write-off.
3. Due to staff shortages, inventory listings of actual bounced checks on hand are not regularly updated.
4. Long outstanding bounced checks have not been collected. No written procedure appears to be in place to document efforts of collection or replacement for bounced checks.

Effects:

1. Because bounced checks are not timely recorded in the system, there is a potential that the bounced check GL account may be misstated.
2. Receivable accounts and the related allowance for bad debts account may be materially misstated.
3. No known effect on the financial statements results from this condition.
4. Absent concentrated effort to pursue replacement of bounced checks, long outstanding accounts are likely to be written off, thereby reducing General Fund revenue.

Prior Year Status: The above conditions are reiterative of prior year findings.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-27 – Other Receivables – Bounced Checks, Continued

Recommendations:

1. A set of procedures should be in place to effectively manage collections of bounced checks.
2. A timely and regular reconciliation between the general and subsidiary ledgers should occur.
3. A calculation of the allowance for doubtful accounts should be regularly updated after review by management.
4. On a regular basis, a physical inventory of bounced checks should be performed to validate ledger balances.
5. Regular staff should be assigned responsibility over ensuring these policies and procedures are implemented and enforced.
6. AS400 generated reports should be modified to reflect more meaningful information to assist in reconciliations and to eliminate redundancy in bounced check recordkeeping.

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

DOA made 2.5 million dollar adjustment to write off bad debts prior to the release of OPA report 04-07. The detail listings of the checks to be written off were being compiled and reviewed by Revenue and Tax. The listing was not yet available at the time account was questioned because Revenue had to be revisited to accommodate the \$4 million write off suggested by the OPA.

Reconciliation efforts between DOA and DRT are ongoing. Progress is slow due to various confidentiality issues surrounding the DRT records. We are confident that our efforts will be more evident in the coming audit.

Finding No. 04-28 – Deposits and Other Liabilities

Criteria:

1. Liability accounts should reflect credit balances.
2. Child support collections/disbursements should be supported by a detailed schedule and be timely reconciled to the general ledger.
3. Timely recording of pass-through accounts should occur.
4. Journal entries should be properly supported.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-28 – Deposits and Other Liabilities, Continued

Conditions:

1. The following liability accounts reflect debit balances as of 9/30/04:

GL Account	GL Account Description	GL Amount
110023321	DEPOSIT - PUAG DOI FGIA	\$ 249,966

110023451	DEP-GEPA MUSTARD GAS EVACUATN	114
	Total	\$ <u>447,609</u>

2. The Collections-Child Support has a balance of \$4,360,808. It appears that payments have not been timely made as collections and subsequent payments should keep the account balance at a lower level.

The balance comprises amounts that have never been disbursed and amounts that have been credited from stale dated checks. The value of the undisbursed amount is approximately \$2.3 million. Undisbursed amounts are governed by public law and must be "diligently" investigated either to find the intended recipient or the payee must be found so the monies can be returned. Only after two years can these funds be transferred to a holding different. The Attorney General's office is unable to diligently investigate the amounts due to a reported lack of manpower and therefore, the money remains in the account indefinitely.

Conditions:

Of the above account balance, approximately \$2 million relates to stale dated checks. Interpreted public law for these checks states that after four years, these balances may be escheated to the Government of Guam. Potentially, part of this money should be paid back to the federal government. If child support payments were not cashed due to the recipient already being on public assistance, 75% of each check should be paid back to the federal government, and the Government of Guam should receive 25%.

Additionally, there is no schedule to support the account entitled Accounts Payable – Unclaimed Checks (Child Support) account amounting to \$1.7 million.

3. Account #110026140 titled "Unidentified Collections" has a balance of \$1,185,237 that is unsupported.
4. Bank of Hawaii checking account – Child Support contains reconciling items that are unsupported.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-28 – Deposits and Other Liabilities, Continued

Causes:

1. There appears to be a lack of control as payments are being paid out of accounts that do not contain balances.
2. There appears to be a lack of adequate controls to apply collections to appropriate recipients.
3. It appears that there is inadequate follow up and investigation to identify correct accounts in which funds should be deposited.
4. Documents in support of reconciling items were not kept in the bank reconciliation files.

Effects:

1. Incorrectly applied payments result in debit balances in the liability accounts.
2. This results in a material misstatement of Child Support Collections. There is a potential risk that portions of undistributed child collections may no longer be valid. Deferrals of distributions of collections could result in beneficiary complaints. The Government of Guam may also owe a portion of amounts escheated back to the Federal Government.
3. It is not possible to determine the effect given the absence of support for the account balance.
4. The bank account has been adjusted to clear dated reconciling items; however, the nature of the transactions has not been documented.

Recommendations:

1. Periodic monitoring of accounts should occur to ensure payments are debited to the correct liability account.
2. DOA should require that the Attorney General's office furnish them a schedule of UDC (Undistributed Collections) for each quarter.

The amounts undisbursed in the UDC schedule should then be added to amounts that comprise stale dated checks. The total should then be reconciled to the general ledger balance.

DOA should review and periodically reconcile the account. These amounts may also be a potential source of revenue for the general fund.

3. Staff should be assigned to investigate old collections. If some collections are still unidentified, an aged listing can be created and presented to the appropriate level of management. Management should determine the disposition of dated unidentified balances.
4. Bank credit and debit memos should be reconciled from the bank statement on a monthly basis. Supporting documentation should be filed with the bank reconciliations.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-28 – Deposits and Other Liabilities, Continued

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

Condition 1:

The Department of Administration provided specific responses to particular findings and generally concurs with the recommendations.

The Department of Administration undertook corrective measures and focused in providing resolutions to prior years' recurring audit findings and audit opinion qualifications. The entire Federal accounts receivable was restructured to reflect accounts receivable by Federal grantor agency instead of individual grantee agency. The Department of Administration also focused on the completion of the fixed assets listing and the resolution of the solid waste landfill issue. As a result, two qualifications were removed.

The Department of Administration hired additional accountants and may need to hire more to have that comport level of efficiency. With these additional accountants, the Department of Administration will aggressively resolve remaining recurring audit findings and prevent the occurrence of any new findings.

The Department of Administration will maintain its focus on any remaining opinion qualification and pursue aggressively for its resolution.

Condition 2:

This condition occurred and is recurring and the accounting mechanism is in place to apportion the share of the Federal government (75%) and the Local government of Guam (25%). In Fiscal year 2004, the Child Support Enforcement paid to the Treasurer of Guam (General Fund) an aggregate total of \$600,000 plus and apportioned accordingly to Federal and Local accounts.

Additionally, there was a schedule provided to support the Accounts Payable – Unclaimed Checks (Child Support) amounting to \$1.7M.

Condition 3:

This account was questioned last fiscal year 2003 audit, and responses and documentation was provided as to the nature of the account and the transactions posted into this account. The account was used then to accommodate the transferred bank balances of all the accounts of Guam Mass Transit Authority to the General Fund. In fiscal year 2003 audit, the contra account in fund 317 (Public Transit Fund) was accounts receivable, although in the unaudited financial statements it was an interfund receivable.

Condition 4:

The DOA agrees with this observation by the auditor. There were old debit and credit memos reflected in the bank statements for immaterial amounts that the Bank Reconciliation section was unable to resolve during the process of reconciliation in the prior years and was recently adjusted. This account is now inactive and a new account from another bank was opened.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-29 – Accounts Payable - Trade

Criteria:

1. Accounting transactions should be properly recorded and supported.
2. Accounts payable aging should be regularly reviewed to ensure that only valid accounts are recorded.
3. Accounts payable listings should be regularly reconciled to identify outdated transactions.

Conditions:

1. Of 41 samples tested, two samples were not properly supported by invoices or other information relating to the liability, as follows:

Amount	Check #
\$ 367,590.99	#000015006
\$ 197,721.95	#000015005

2. Accounts payable amounting to \$565,312 aged two or more years remains in the listing while more current balances have been liquidated.
3. Of the nine general ledger liability accounts tested, all nine accounts included invalid accruals as follows:

GL Account #	GL Account Description	GL Amount
110021110	Accounts Payable	\$ 4,403,379
110021120	Contract Retention	893,583
110021131	Bonds Payable	508,443
110021210	Social Security Deduction/Retention	545,928
110021490	Miscellaneous Deductions	353,670
110021590	Accrued Other Expenditures	5,359,120

Audit adjustments were proposed for the above amounts to correctly state these liability accounts as of fiscal year end.

Cause: There appears to be a poor internal control of filing supporting documentation of recorded transactions.

Effect: A potential misstatement of recorded payables result from this condition.

Prior Year Status: The above condition is reiterative of prior year findings.

Recommendation: We recommend that documentation be maintained on file to support recorded transactions.

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

Documentation substantiating these findings were retrieved and are pending audit review.

GOVERNMENT OF GUAM

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2004

Finding No. 04-30 – Special Revenue – Accounts Payable and Deferred Revenue

Criteria: Detailed subsidiary ledgers should be maintained and updated to ensure account validity. Furthermore, the subsidiary ledger should be reconciled with the general ledger and be made available for review.

Conditions:

A detailed aged payable ledger was not provided for the following accounts.

Fund	GL Account	Amount
293	129321110	\$10,077,616
293	129321590	<u>1,264,760</u>
	Total	<u>\$11,342,376</u>

Cause: There appears to be weak internal controls over ensuring that a detailed aged subsidiary ledger is maintained and updated and that the subsidiary ledger is reconciled with the general ledger.

Effect: This condition may result in a potential misstatement of accounts payable and deferred revenues.

Recommendation: The auditee should strengthen internal controls to ensure detailed aged subsidiary ledgers are maintained and updated and that the subsidiary ledgers are reconciled with the general ledger.

Auditee Response and Corrective Action Plan:

Lourdes M. Perez, Director, Guam Department of Administration, provided the following response:

The DOA disagrees with the finding. The auditor was provided an analysis and documentation and an explanation as to the nature of the transactions. The general ledger balance of the account as of September 30, 2004 was from a single accrual retroactive to September 30, 2003. The accrual made under this account was a duplication of an accrual under account 110021590. The balance of this account was subsequently adjusted down to zero to basically reverse all transactions that should not have been done and posted. All payments made against this account were transferred to account 110021590, which is the right and other accrual account.

Auditors' Response:

We recommend that detailed subsidiary ledgers be maintained and updated by the Department of Administration to reflect recorded balances in the general ledger. This matter was resolved through alternative audit procedures whereby we obtained a detailed listing of pending medical claims as of September 30, 2004 from the Department of Public Health, and proposed the necessary audit adjustments to the general ledger.
